Notes:-

1. Only members registered in the Record of Depositors as at 19 June 2015 shall be eligible to attend the AGM or appoint a proxy to attend, speak and vote on his/her behalf.
2. A member of the Company entitled to attend and vote at the AGM is entitled to appoint up to two (2) proxies to attend and vote instead of him/her. A proxy may but need not be a member of the Company and the provisions of Section 149(1)(b) of the Companies Act, 1965 shall not apply to the Company.
3. Where a member appoints more than one (1) proxy, the appointment shall be invalid unless he/she specifies the proportion of his/her shareholdings to be represented by each proxy.
4. In the case of a corporate member, the instrument appointing a proxy shall be under its common seal or under the hand of some officer of the corporation, duly authorised on that behalf.
5. Where a member of the Company is an exempt authorised nominee which holds ordinary share in the Company for multiple beneficial owners in one securities account (omnibus account), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each omnibus account it holds.
6. Where a member of the Company is an authorised nominee as defined under the Securities Industry (Central Depositories) Act, 1991, it may appoint at least one (1) proxy but not more than two (2) proxies in respect of each securities account it holds in the ordinary shares of the Company standing to the credit of the said securities account.
7. The instrument appointing a proxy must be deposited at the Company's Registered Office at Lot 506, Jalan Pelabuhan Utara, Bandar Sultan Suleiman, 42000 Pelabuhan Klang, Selangor Darul Ehsan, Malaysia, not less than forty-eight (48) hours before the time set for the AGM or any adjournment thereof.

EXPLANATORY NOTE:-

- (I) This agenda on the Audited Financial Statements ("AFS") is for discussion only and will not be put to vote as the provision of Section 169 of the Companies Act, 1965, requires the AFS to be laid to the shareholders in an AGM and it does not require formal approval thereof by the shareholders.
- (II) The Board of Directors ("Board") seeks the approval of the shareholder in respect of the payment of directors' fee to the directors who have served for the financial year ended 31 December 2014. Details of the directors' remuneration and fees are disclosed on page 27 of this Annual Report.
- (III) Article 83 provides for yearly one third retirement of the directors for the time being and the profile of the directors can be found on page 9 to 13 of this Annual Report.
- (IV) Notice of Nomination for the appointment of Auditors pursuant to Section 172(11) of the Companies Act, 1965, from the shareholder of the Company can be found on page 108 of this Annual Report.
- (V) The Resolution, if passed, will allow En. Azman Bin Che Onn to be retained and continue acting as the Independent Non-Executive Director to fulfil the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and in line with the recommendation of the Malaysian Code of Corporate Governance 2012. The full details of the Board's justification and recommendations for the retention of the Independent Director are set out in the Statement on Corporate Governance on page 25 and 26 of this Annual Report.
- (VI) The Resolution, if passed, will give the Directors the authority to issue and allot shares in the Company up to an amount not exceeding in total 10% of the issued share capital of the Company for the time being for such purposes as the Directors consider would be in the interest of the Company. This authority, unless revoked or varied at a general meeting, will expire at the conclusion of the next AGM of the Company.

The general mandate sought in this Resolution for issue of securities is a renewal of the mandate that was approved by the shareholders on 26 June 2014. The mandate that was approved last year was unutilized. The proposed renewal of the general mandate will provide flexibility to the Company to issue new securities for possible fund raising exercises including but not limited to further placement of shares for purpose of funding current and/or future investment projects, working capital and/or acquisitions.

CORPORATE PROFILE

Haisan Resources Berhad (“Haisan” or “the Company”), a public listed company on the Main Market of Bursa Malaysia Securities Berhad, is a leading provider of integrated temperature-controlled logistics and industrial refrigeration engineering solutions in Malaysia.

Haisan’s strength lies in its ability to combine expertise with innovation and state-of-the-art infrastructures with up-to-date technology, to provide our clients/customers and ourselves with a distinct competitive edge in the marketplace.

HAISAN’S CORE BUSINESSES:

TEMPERATURE-CONTROLLED LOGISTICS

provides integrated end-to-end logistics solutions for temperature-controlled products across Malaysia and Singapore;

ENGINEERING

provides total solutions for industrial refrigeration applications, include offering a wide range of refrigeration equipment and, providing turnkey solutions for cold storage and food processing facilities; and

ICE MANUFACTURING

offers a wide range of ice products along with distribution and merchandising services.

HAISAN AT THE INDUSTRY FOREFRONT

Temperature-Controlled Logistics

The Company’s Temperature-Controlled Logistics (“TCL”) division, **IGLO**, operates as a regional integrated cold chain logistics provider with a state-of-the-art Multiple Temperature-Controlled Facilities (“MTCF”), which is located at Port Klang, Malaysia.

The MTCF of IGLO is one of the largest cold storage facilities in Malaysia, with a capacity of 18,000 pallets and, is the first cold storage facility accredited with HALAL and Hazard Analysis and Critical Control Points (HACCP) certifications in the country.

With its technologically advanced MTCF, which is designed and commissioned by Haisan’s in-house Engineering team, IGLO has the ability to store the temperature-sensitive products at various temperature levels, ranging from +15°C to as low as -28°C, as well as the capability of blast freezing up to -40°C.

IGLO’s concept of “No Break in Cold Chain” forms an integral part of its service deliverables, to ensure the quality of the clients’ products throughout the supply chain process i.e. from the point of receipt until the point of delivery.

IGLO’s expertise lies in providing quality end-to-end cold chain logistics solutions to the food and beverage industry, in particular, ice cream, fast foods, dairy products, marine produces, meats, poultry, vegetables, fruits, soft drinks, and etc.

IGLO is also able to provide similar temperature-controlled solutions to tobacco and semiconductor chips products which require specific skills and knowledge in managing the storage and handling of the products. In fact, IGLO is the

first company in Malaysia to pioneer the unique tempering process in relation to the storage and handling of the tobacco products in a temperature-controlled environment.

IGLO employs an in-house developed Warehouse Management System (“WMS”) which is used concurrently with the Radio Frequency Identification (“RFID”) system, to support its operations. The WMS is a system developed to manage operation at optimum efficiency i.e. allows customised stock picking, management of inventory and online data visibility, whilst the RFID system is a tool to enhance the inventory and tracking management.

IGLO also maintains a fleet of refrigerated trucks to provide extensive distribution and transport services for temperature-controlled products across Malaysia and Singapore.

Engineering

The Company’s Engineering division, **Haisan Engineering**, specializes in refrigeration solutions for industrial applications. Equipped with a team of qualified engineers and experienced technicians, Haisan Engineering is capable in providing a complete range of refrigeration engineering solutions and services, which include undertaking turnkey projects involving the supply of integrated refrigeration system for cold storage and food processing facilities, as well as fabricating and offering a wide range of refrigeration equipment such as compressor, contact plate freezer, pressure vessel, air blast freezer, evaporative condenser, instantaneous water chillers, ammonia, valves and controls, Instant Quick Freezing (IQF) system, ice making machines and block ice plant.

Ice Manufacturing

The Company’s Ice Manufacturing division, **Haisan Ice**,

is one of the major ice manufacturers in Malaysia in the category of tube ice. Being one of the pioneers in the industry, Haisan Ice is the first ice manufacturing company to receive HALAL, HACCP and ISO 9001:2008 certifications for its ice products in Malaysia, and it had also obtained license to prepare ice for the purpose of trade or business issued by the Ministry of Health of Malaysia.

Being one of the oldest names around, Haisan Ice’s products had been in the market for more than 35 years and are well-accepted by the local consumers. Its wide range of ice products such as block ice, tube ice and ice sculpture are made from the purest water supply utilising the state-of-the-art in-house developed water filtration system. Currently the division has two (2) ice plants in Klang Valley, located at Port Klang and Petaling Jaya respectively.

Haisan Ice, through various channels of distribution including mass merchandisers, markets its packaged edible tube ice in hypermarkets, convenience stores, and etc. Its ice products are used by a wide range of users including commercial users, special entertainment outlets, event organisers, restaurants, as well as processing plants and the fishery and agricultural sectors.

The Way Forward

It is our firm believe in “Embracing Change or Be Changed” that cause us to transform, from a humble ice maker and seller for more than 35 years ago, to become what we are today and, we will continue to rely on the same drive in “Welcome Positive Change, Embrace Effective Change and Make Wise Changes” to attain our vision and mission.

CHAIRMAN'S STATEMENT

Dear valued shareholders,

On behalf of the Board of Directors ("Board") of Haisan Resources Berhad ("Haisan"), I wish to present the Annual Report and the Audited Financial Statements of Haisan and its subsidiaries (collectively the "Group") for the financial year ended 31 December 2014 ("FYE 2014").

OVERVIEW

Throughout 2014, we remained focused on executing our initiatives contemplated under the Regularisation Plan with aims to restore the financial solvency of the Group and to lift Haisan from its Practice Note 17 ("PN17") status. The Regularisation Plan, which comprises the recapitalisation initiatives through a private placement, which had been carried out in the first quarter of 2014, contributed RM2.00 million ("Private Placement"), and a renounceable rights issue to be undertaken, which will raise proceeds up to RM18.08 million ("Rights Issue"), coupled with the proposed development plans for the principal business segments of the Group, would be sufficiently comprehensive to resolve the problems that had caused Haisan to trigger the prescribed criteria of PN17.

The Rights Issue would be carried out upon the completion of the sale and leaseback of the Group's seven (7) properties located at Port Klang, on the basis of three (3) rights shares for every one (1) existing Haisan share at an issue price of RM0.05 per rights share.

Although we have been operating in a constrained financial environment with limited financial assistance from the banks ever since Haisan was classified as a PN17 company, we still managed to maintain the sustainability of the Group's core operations throughout the years, as well as safeguarded our market leader status in the cold chain industry. This is attributed to our good reputation in the market as a highly respected specialist with a wide range of operations, from upstream to downstream in the cold chain industry.

FINANCIAL PERFORMANCE

For the FYE 2014, the Group's revenue from continuing operations deteriorated to RM36.54 million compared to preceding year's revenue of RM39.64 million primarily due to decline in income from the Engineering and Ice divisions.

The reduction in revenue of the Engineering division was attributed to the decrease in project revenue following a drop in number of projects/contracts secured during the financial year under review.

On the other hand, the Group's revenue performance for the FYE 2014 was also impacted by the discontinuation of the loss making ice operations, i.e. two (2) in Johor and one (1) in Kuala Lumpur, by disposing the assets of the operations, which was in line with the Group's strategy to exit from the loss making operations and to shrink its balance sheet further.

The Group registered a loss after tax from continuing operations of RM4.61 million for the FYE 2014 against a profit after tax from continuing operations of approximately RM0.04 million for the financial year ended 31 December 2013 ("FYE 2013"). Besides the lower revenue, the loss for the FYE 2014 was due to high interest costs amounting to RM9.10 million and decline in other income which more than halved from RM10.98 million in 2013 to RM5.06 million in 2014. The other income for the FYE 2013 was composed primarily of a one-off non-cash income arising from the reversal of the provision for utilities claims no longer required and a gain on waiver of interest on full and final settlement of a debt.

The profit from discontinued operations for the FYE 2013 was RM1.10 million, mainly as a result of a gain of RM1.56 million on the disposal of a Chinese subsidiary, net of tax. There were no discontinued operations in the Group during the year under review. As a result, the Group's net loss after tax was same as the loss after tax from continuing operations of RM4.61 million for the FYE 2014 compared to a net profit after tax of RM1.14 million for the FYE 2013.

CORPORATE DEVELOPMENT

On 2 January 2014, Haisan cancelled its 7,604,100 shares which were bought back and held as treasury shares pursuant to Section 67A of the Companies Act, 1965 after the shareholders' approval of the Proposed Regularisation Plan was obtained. Consequently, the issued and paid-up share capital of Haisan was reduced from RM44,072,500 comprising of 88,145,000 ordinary shares of RM0.50 each to RM40,270,450 comprising of 80,540,900 ordinary shares of RM0.50 each effective 2 January 2014. The issued and paid-up share capital of Haisan was further reduced to RM4,027,045 comprising of 80,540,900 ordinary shares of RM0.05 each, following the lodgement of an order dated 10 January 2014 which was granted by the High Court of Malaya for the Capital Reduction, with the Companies Commission of Malaysia on 15 January 2014.

Further on 14 March 2014, Haisan issued and allotted 40,000,000 shares to the respective Placees, namely YM Tengku Makram Bin Tengku Ariff, En. Wan Zulkifie Bin Wan Yusoff, Accurate Consult Sdn Bhd, Dato' S.S. Subramaniam, Mdm. Khoo Geok Leng, En. Mohamed Shahrom Bin Abdul Ghani and Mr. Benny Soh Seow Leng, pursuant to the Private Placement. However, the 40,000,000 shares will only be listed and quoted simultaneously with the rights shares to be issued pursuant to the Rights Issue.

On 16 October 2014, Bursa Securities granted Haisan an extension of time until 24 February 2015 to implement and complete its Regularisation Plan, and subsequent on 11 February 2015, Bursa Securities had once again given Haisan an extension of time of four (4) months until 24 June 2015.

During the year under review, Haisan had also completed the disposals of two (2) ice factories located in Kuala Lumpur and Johor in the first quarter and fourth quarter of 2014, respectively. The proceeds from the disposals were utilised to pare down the Group's debt level.

There have been some changes to the Board's composition during the year under review. Mr. Chua Boon Leong, who has served the Board more than twelve (12) years, had been redesignated as the Non-Independent Non-Executive Director on 6 March 2014. Mr. Chua has a good insight on the business aspects of the Group and is experienced in financing and compliance matters, and the Board values his continued service on the Board.

On the other hand, on 28 August 2014, Mr. Prabir Kumar Mitra had resigned as Chairman of Audit Committee as well as stepped down from the Board as Independent Non-Executive Director, and subsequently took up a senior role in the Group as Deputy President and Head of Financial

Reporting & Governance. The role of the Chairman of Audit Committee was succeeded by Maj (R) Mahmood Kamsani Bin Mustapha, who has exposure in the corporate and business environment for almost thirty (30) years.

Mr. Ong Rui Yuan had also stepped down from the Board as Executive Director on 28 August 2014 in order to focus on his role in the Group as Deputy President and Head of Operations & Compliance.

The Board believes that these changes were necessary to enhance the management team's operational focus and ability to carry out the Group's restructuring plans successfully.

OUTLOOK & PROSPECTS

Moving forward, the Board has no doubt the year ahead will prove challenging for the Group, but we remain confident that the initiatives we are working on will allow us to strengthen and recapitalise the Group's financial position as well as to lift Haisan from its PN17 status. We are eagerly awaiting for the completion of the Group's Regularisation Plan which will allow the Group to raise a capital of approximately RM18.08 million via the Rights Issue. The proceeds will then be utilised primarily to part finance the Group's capital expenditure for its business operations, upgrading its existing facilities and future expansion.

Based on the best knowledge of the Board under the present circumstances, the Regularisation Plan is adequate to address the financial concerns of the Group that had caused the deterioration of its financial performance. Moving forward, we will explore opportunities which complement the three (3) principal business segments of the Group. Nevertheless, any future projects would be subject to detailed analysis of the potential markets, risks and return prior to undertaking the investment and improved financial management for an optimum capital structure without adding undue pressure on the cash flows of the Group.

DIVIDENDS

In light of our ongoing and continuing restructuring initiatives to lift Haisan from its PN17 status, we continue to adopt a prudent approach in managing the Group's financial resources. Therefore, the Board does not recommend the declaration of dividends for the FYE 2014.

APPRECIATION

On behalf of the Board, I take this opportunity to thank all of our valued customers, shareholders, partners, suppliers, bankers, advisers and regulatory authorities for their invaluable support and assistance throughout the years and we look forward to their continued support.

Lastly, I would like to express my sincere appreciation to all of my fellow directors, management and staff for their dedication and commitment to the Group as we grow together as a team.

Together we build the future, together we make it happen!

CEO'S REVIEW OF OPERATIONS

2014 witnessed our continued efforts towards ensuring the completion of the Regularisation Plan which is aimed at restoring the Group's financial position and lifting Haisan out of its PN17 status. However, the overall business performance of the Group during the year was affected by its working capital constraints which held back the growth and development of the Group.

The Group recorded a revenue from continuing operations of RM36.54 million for the FYE 2014, a deterioration of 7.82% compared to preceding year's revenue of RM39.64 million, primarily attributed to decline in income from the Engineering and Ice divisions.

The Group registered a loss after tax from continuing operations of RM4.61 million for the FYE 2014 against a profit after tax from continuing operations of approximately RM0.04 million for the financial year ended 31 December 2013 ("FYE 2013"). Besides the lower revenue, the loss for the FYE 2014 was due to high interest costs amounting to RM9.10 million and decline in other income which more than halved from RM10.98 million in 2013 to RM5.06 million in 2014.

There were no discontinued operations in the Group during the year under review. As a result, the Group's net loss after tax was same as the loss after tax from continuing operations of RM4.61 million for the FYE 2014 compared to a net profit after tax of RM1.14 million for the FYE 2013.

SEGMENTAL PERFORMANCE

Temperature-Controlled Logistics ("TCL")

The TCL division remained the main revenue contributor of the Group, accounting for 74% of the total turnover for the financial year under review. The division made RM26.87 million in turnover, of which a majority was derived from warehousing. The revenue showed an increase of 6% compared to RM25.42 million for the preceding year. This increase has shown a continued peak in occupancy of our multiple temperature-controlled facilities ("MTCF") during the year under review.

Engineering

The Engineering division recorded a revenue of RM3.81 million for the FYE 2014, a decline of 45% compared to the preceding year's revenue of RM6.98 million. The reduction in revenue of the Engineering division was attributed to the decrease in project revenue following a drop in number of projects and contracts secured during the financial year under review.

ONG CHIN YET
Chief Executive Officer

Ice Manufacturing

The Ice Manufacturing division recorded a 34% decline in revenue to RM4.67 million for the FYE 2014 compared to the preceding year's revenue of RM7.11 million. The revenue performance was mainly impacted by the discontinuation of three (3) ice operations, i.e. two (2) in Johor and one (1) in Kuala Lumpur, by disposing the assets of the operations, which was in line with the Group's strategy to exit from the loss making operations and to shrink its balance sheet further.

OUTLOOK & PROSPECTS

The Malaysian economy is expected to sustain its positive growth trajectory in 2015, supported by improved global economic conditions and resilient domestic demand. Nonetheless, as a highly open economy amid an increasingly liberalised global environment,

Malaysia remains vulnerable to external shocks.

The Malaysian economy is expected to sustain its growth momentum in 2015 driven by resilient domestic demand and an improving external sector. Given the better outlook of the global economy and underpinned by the 2015 Budget measures to further support growth and transformation programmes, GDP is expected to expand at a steady pace between 5% and 6% in 2015.

TCL

The outlook for the TCL industry in Malaysia remains positive as the industry is still at its growth stage, there is a lot of potential for further expansion. The temperature-controlled warehousing and logistics segment is projected to expand between 10% and 15% per annum in the coming years due to increasing health consciousness and higher demand for better quality products and foods.

With the increasing demand for quality in products and delivery services by both consumers and retailers, the TCL industry is expected to undergo tremendous transformation with the integration of innovation and technology, especially in the area of information and communications technology, warehousing management and logistics solutions, and other value-added services.

Being an industry pioneer since 1998, we have an established record and are known for "No Break in Cold Chain" expertise where our customers' goods are stored and handled at the right temperature throughout the logistics process in order to retain the quality of the goods and to reduce wastage due to spoilage. We are also the first cold chain logistics company

to obtain HALAL and Hazard Analysis and Critical Control Point (HACCP) certifications in Malaysia.

Furthermore, we always play a proactive role in providing excellent services that combine expertise with innovation and the latest cold chain technology infrastructure to meet our customers' changing needs. We always believe that technology is the leading role to the future. The incorporation of the latest technology such as warehousing management system, radio frequency identification (RFID) and other IT solutions in the warehousing and logistics operations would provide greater benefits to the growth of the industry.

Moving forward, we are well-positioned to leverage on our proven track record to offer advisory and management services to those who are keen to develop their cold chain management operations and infrastructure.

As planned under the Regularisation Plan, we will also expand our cold storage capacity by 5,000 pallets through the conversion of an existing vacant warehouse at Port Klang into a new MTCF, utilising proceeds to be raised from the Rights Issue, in view of the limitation of our existing storage capacity to meet the increasing demand from our existing and new clients.

With the above mentioned outlook and plans, the Board anticipates that the expansion of our TCL division in the coming years would remain bright, and expects the TCL division to remain the largest contributor to the Group going forward as well as its key driver.

Engineering

The Board expects that, upon the completion of the Regularisation Plan, the Engineering division would grow better in the future by leveraging on its established track record which is recognised locally as well as internationally given the number of large contracts that have been successfully completed.

Equipped with a team of experienced personnel, the Engineering division would be more proactive in marketing its supply and installation of cold chain infrastructure and system solutions. There are opportunities in the country and overseas for our niche services as there is a shortage of experienced service providers who can design and construct state-of-the-art cold storage facilities that meet the technical and innovative needs of the cold chain industry as well as the international quality standards, such as HACCP and ISO standards in the food and beverage industry.

Furthermore, with the completion of the Rights Issue, the Group would commence the production and refurbishment of liquefied petroleum gas (LPG) and pressure vessel tanks via the joint venture with Kelgas Sdn Bhd for domestic and industrial uses for both local and export markets. This new business venture is expected to allow the Group to recognise an additional constant stream of revenue in future.

Ice Manufacturing

As part of the internal restructuring, the Group had disposed of its three (3) ice factories together with the lands located in Johor and Kuala Lumpur, respectively, between 2013 and 2014. The tube ice machine from the plant in Johor Bahru

had been transferred to the ice factory in Port Klang, whereas the equipment of the factory in Kuala Lumpur remains operational by Haisan in collaboration with an appointed sales agent. This allows the Ice division to accommodate rising demand in Klang Valley and to recognise savings in terms of production and administration expenses, as well as achieve economies of scale.

Presently, the Ice division is focused on the production of tube ice and had outsourced the production of block ice to a third party, which is in line with the Group's strategy to achieve cost efficiencies.

CLOSING REMARKS

With the implementation of the Regularisation Plan and the business plans coupled with the long-term positive outlook of the Malaysian cold chain industry, we believe that the going concern status of the Group would be addressed and the financial condition of the Group is expected to be restored.

Moving forward, we will continue to focus on the expansion of the Group's principal business segments, particularly the TCL division in view of its huge potential and promising prospect. Furthermore, we are always confident in our expertise and experience in the TCL industry, and we have been able to secure new customers and renew contracts with existing customers, notwithstanding the PN17 status.

Nevertheless, we remain cautious about the Group's business outlook and continue to maintain strict control of costs as we expect to face further challenges domestically, especially with the implementation of the Goods and Services Tax (GST) on 1 April 2015. Based on the strength of our track record and long experience in the industry and, on the basis that the Regularisation Plan would be completed in time, we expect the overall performance of the Group will be much improved in the coming years.

Together we build the future, together we make it happen!

STATEMENT ON CORPORATE SOCIAL RESPONSIBILITY

At Haisan, we have always believed in and taken seriously the importance of Corporate Social Responsibility ("CSR"). We strive to be a more responsible corporate citizen in our ventures and desire to add value to the communities in which we operate by upholding high standard of conduct and integrity in what we do. We trust that this will bring sustainable and collective value to our shareholders, employees, customers and society.

ACTIVITIES

A Place Like Home

Haisan believes that our employees are the greatest asset and hence strive to strike a balance between work life and personal aspirations.

Developing passion in their work is one focus and strength, and we remain committed to helping our employees develop to their fullest potential. Operational staff are provided training for their scope of work and regularly monitored and assessed for quality, safety and hygiene.

We comply with good and common procedures such as wearing cold-room jacket, limited time inside cold room with rests. We are in the progress of adapting this procedures based on United States standard, and comply with Occupational Safety and Health Act (OSHA), Hazard Analysis Critical Control Point (HACCP) and HALAL standards. Changing rooms, wash room, staff rest room and designated smoking area are provided. Cigarette smoking is actively discouraged. Going forward Haisan is consultations with clients and customers to improve standards including Supplier Compliance (SEDEX).

We offer a competitive remuneration package with a range of benefits to attract and retain the good staff and encourage loyalty. At suitable locations a pantry facility is provided to office staff. In addition to the standard benefits such as annual leave and medical coverage, we also offer career development plans for both technical and non-technical staff. This includes employee recognition and mentoring programmes.

We also continually look for ways to engage with our employees to foster a strong sense of purpose and belonging. The Group employs an open door policy and every employee is empowered to provide suggestions or feedback on any subject matter; regardless of position or length of employment

We practice equal opportunity and treat all employees fairly regardless of race, religion, disability, gender, age and marital status. Where suitable, such in the reception and telephony, we employ physically challenged persons, who are visually impaired.

Our Community

Employees, who are part of our community, are encouraged to participate in the various social events and sports activities. To foster camaraderie amongst the employees, we always organise social gatherings such as festive and birthday celebrations although these activities were at a reduced level due to our constrained financial health.

Our employees are encouraged to participate in community works, an employee-run "Make It Happen" Club ("MIH Club") was established in July 2007 to facilitate communication amongst employees of all levels to improve employees' welfare and acts as a platform to promote employees' involvement in the CSR affairs.

Blood donation campaign has also been an annual event of Haisan since 2008. As in the previous years, the MIH Club had once again organised a blood donation campaign, in collaboration with Hospital Tengku Ampuan Rahimah Klang, in February 2015 at Haisan Headquarters. The campaign again received tremendous support from both our employees and our neighbouring business partners.

Caring For The Environment

Since the first recycling campaign organised by the MIH Club in 2007 with aims to create a "GREEN" working environment, the recycling has become our daily routine and recycle bins have been placed at various strategic locations within the office compound to continue promoting the recycling habit.

In the operations, standards are imposed to effectively control the usage of electricity while maintain cold room temperature requirements, and thus lower our carbon foot print and costs.

Further to this effort, a waste management contractor is also appointed to dispose the wastes in an environmentally sound and efficient manner.

Market Place

In dealings with our suppliers, customers, shareholders and other stakeholders, Haisan holds firm to corporate ethics which include doing business responsibly and in the interest of our stakeholders in the long term.

Haisan supports green initiatives in its services, and collaborates with its clients and customers to achieve good market standard, such as ISO 9000, HACCP, HALAL (MS 1500 and 2400) and SEDEX.

In conjunction with our commitment to good service, Key Performance Indicators (KPIs) and benchmarks are reviewed regularly with our clients and customers. In light of this we are proud to state our lead position in the Temperature-Controlled Logistics industry.

Moving forward, we shall continue to step up our efforts in the CSR affairs and are committed to continue our contribution to the society.

5.	Prabir Kumar Mitra <i>(Resigned as Chairman on 28 August 2014)</i>	3/3

The Company Secretary was present by invitation in all the meetings.

EMPLOYEES' SHARE OPTION SCHEME ("ESOS")

The Company's ESOS had lapsed on 21 September 2013. There were no new options granted since.

SUMMARY OF ACTIVITIES

The main activities undertaken by the Audit Committee during the period were as follows:-

- (a) Review of the quarterly financial results of the Company and making appropriate variations to the report before recommending for adoption by the Board and announcement to Bursa Securities;
- (b) Reviewed the related party transactions that had arisen within the Company or the Group;
- (c) Reviewed the draft audited accounts before recommending to the Board for approval;
- (d) Considered the appointment of external auditors and their request for increase in audit fees;
- (e) Reviewed the findings and recommendation on the internal audit report prepared by the internal auditors; and
- (f) Reviewed the business operations and business plans with the divisional heads.

INTERNAL AUDIT FUNCTION

During the financial year under review, the Company has outsourced its internal audit function to an independent professional consulting firm, which is tasked with the responsibility of providing assurance to the Audit Committee and the Board on the adequacy and effectiveness of the internal control systems and risk management in the Company. Their duties involve providing the Audit Committee with an independent and objective report on the state of internal control of the operating units within the Group and the extent of compliance by such units with the Group's established policies and procedures, to ensure the Company and the Group's system of internal controls remain effective, efficient and is being monitored adequately and enhanced as and when the need arises.

The total costs incurred for the internal audit function of the Group for the financial year ended 31 December 2014 was RM19,478.30. Further details of the internal audit functions are set out in the Statement on Risk Management and Internal Control of this Annual Report.

STATEMENT ON CORPORATE GOVERNANCE

The Board of Directors of Haisan ("Board") is committed towards upholding the highest standards of corporate governance throughout the Group, as stipulated in the Principles and Best Practises of the Malaysian Code of Corporate Governance 2012 ("Code") and Bursa Malaysia Securities Berhad's ("Bursa Securities") Main Market Listing Requirement ("MMLR") including the adoption of the recommendations in the Corporate Governance Guide issued by Bursa Securities as a key factor towards achieving an optimal governance framework and maximizing shareholders' values.

With this in mind, measures and efforts have and shall be taken to ensure that as far as possible the adoption and implementation of the Code's Best Practices and adherence to the MMLR of Bursa Securities in the Company's governance.

With the forthcoming exit of the Company from the PN17 status a number of initiatives are being introduced for the year 2014/2015 which includes the following:-

- A review of the terms of reference of the Board and Board Committees;
- Revamping of the Risk Management Framework;
- Review of the Internal Audit Framework; and
- Revamping of the composition of the Board and Management Committees.

1. DIRECTORS

Board of Directors

As at the date of this Annual Report, the Board consists of nine (9) members, comprising:-

- Four (4) Executives
- One (1) Non-Independent Non-Executive
- Four (4) Independent Non-Executives

The Board is lead by an Independent Non-Executive Chairman assisted by an Executive Vice-Chairman and a Managing Director ("MD")/President/Chief Executive Officer ("CEO").

All board members come from diverse professional backgrounds with a wide range of experiences. They participate actively in key issues involving the Group and contribute positively by providing independent opinions and judgments when discussing the strategies proposed by the Management, taking into account the long-term interests of the various parties connected to the Group.

The four (4) Independent Non-Executive Directors are persons of high calibre and credibility, free of management obligations and relationships that could materially interfere with the exercise of their independent judgement. Their roles are to ensure that any major and material decisions of the Board are deliberated fully and objectively with regard to the long term interests of all stakeholders. Any material and important proposals that will significantly affect the policies, strategies, directors and assets of the Group will be subject to approval by the Board.

Roles and Responsibilities

The Board leads and provides stewardship to the Groups strategic direction and operations to maximise the shareholders' value. It regularly meets to perform its principle responsibilities, amongst others, as follows:-

- Reviewing and adopting the strategic plans of the Group;
- Overseeing the conduct of the Group's business;
- Identifying principal risk and ensuring implementation of appropriate systems to manage the risks; and
- Reviewing the adequacy and the integrity of the Group's internal controls, management information systems, including systems for compliance with applicable laws, regulations, rules and guidelines.

There is a clear division of responsibility between the Chairman and MD/President/CEO to ensure that there is a balance of power and authority.

The Chairman is responsible for the conduct of meetings of the Board and shareholders and ensuring that all Directors are properly briefed during Board discussions and shareholders are informed of the subject matter requiring their approval. The MD/President/CEO is responsible for the overall management of the Group, ensuring that strategies, policies and matters set by the Board are implemented.

Board Meeting

The Board meets at least four (4) times a year at quarterly intervals with additional meetings held whenever necessary. During the financial year under review, the Board met four (4) times and the details of the attendance of the Board members are set out as follows:-

1.	Prabir Kumar Mittra	Independent Non-Executive Director / Chairman of Audit Committee	28 August 2014
2.	Ong Rui Yuan	Executive Director	28 August 2014

Meetings of the Board for the financial year ended 2015 were scheduled before the end of the last financial year and at least four (4) meetings shall be held.

Supply of Information

The Board recognises that the decision-making process is highly dependent on the quality of information furnished. As such, all directors have unrestricted access to any information pertaining to the Company.

Each director also has unhindered access to the advice and services of the Company Secretary, whose term of appointment permits her removal and appointment only by the Board as a whole.

There is also a formal procedure approved by the Board for all directors, whether as a full Board or in their individual capacities, to obtain independent professional advice when necessary, at the Group's expense.

Re-election

In accordance with the Company's Articles of Association ("Articles"), at least one-third of the directors shall retire by rotation at each Annual General Meeting ("AGM") and can offer them for re-election at the same meeting. The Articles also provide that all directors who are appointed by the Board to fill a casual vacancy are subject to re-election by shareholders after their first appointment. The directors including the MD shall retire at least once in three (3) years, but shall be eligible for re-election.

Independent Directors' Term of Office

The Board is cognisant of Recommendation 3.2 of the Code regarding the tenure of an independent director not exceeding a cumulative term of nine (9) years and is taking measured steps to ensure smooth transition and continuity of the board functions and has appointed additional independent directors and is reviewing the composition of the Board and the committees.

On 6 March 2014, Mr. Chua Boon Leong, who has served more than twelve (12) years, was re-designated as Non-Independent Non-Executive Director. The Board values his continued service on the Board and the Audit Committee, who has over time developed insight of the business of the Group and experience in financial and compliance matters.

En. Azman Bin Che Onn was appointed as the Independent Non-Executive Director on 30 October 2000 and has served cumulative term of more than nine (9) years on the Board as Independent Director. However, the Board is of the view that immediate compliance to the recommendation may cause the Company to lose continuity. He is an experienced independent director who over time has developed increased insight into the Company and the diversified business operations of the Group. His honesty, commitment, independence and knowledge in various areas warrant his retention.

En. Azman Bin Che Onn is also free from any business or related parties that could materially interfere his independent and objective judgment to the Board's decision. There are no conflicts of interests or undue influences from interested parties. Further, during his

(cont'd)

tenure in office, he has not been offered or granted any options and other than directors' fees paid which have been an industry norm and within acceptable market rates, duly disclosed in the Annual Report, no other incentives or benefits of whatsoever nature been paid to him by the Company. The Board recommends retaining En. Azman Bin Che Onn as the Independent Non-Executive Director of the Company and seeks shareholders' approval in the forthcoming AGM.

Director's Training

All Directors included the newly appointed directors had attended and successfully completed the Mandatory Accreditation Programme ("MAP"), as required by the MMLR. The Company shall continue to sponsor the relevant Continuous Education Programme to further enhance their skills and knowledge and to keep abreast with the relevant changes and development in laws and regulations as well as the business environment.

The seminars and/or courses attended by the directors during the financial year ended 31 December 2014 are as follows:

No.	Name of Director	Seminar/Course

9.	Azman Bin Che Onn	

On 6 May 2014, the Company organised an induction programme for the newly appointed directors, which comprised the following:-

- (i) Introduction to the heads of divisions/departments within the Group;
- (ii) An overview of the history and operations of the Group; and
- (iii) Visit to the operations site.

2. BOARD COMMITTEES

The following committees have been set up to assist the Board to discharge its responsibilities effectively.

(a) Audit Committee

The Audit Committee is headed by an Independent Non-Executive Director and consists of two (2) Independent Non-Executive Directors and one (1) Non-Independent Non-Executive Director. The composition, terms of reference and the activities of the Audit Committee are set out in the Audit Committee Report in this Annual Report.

(b) Nomination Committee

The Nomination Committee has the responsibility of setting up a formal and transparent procedure for the appointment of any new directors to the Board. The appointment of new directors is the responsibility of the full Board after consideration of the recommendations by the Nomination Committee.

The Nomination Committee comprises the following directors:-

- (i) Azman Bin Che Onn (Chairman)
- (ii) Dato' Seri Tengku Baharuddin Ibni Almarhum Sultan Mahmud Al Muktafi Billah Shah
- (iii) Chua Boon Leong

The Nomination Committee shall recommend to the Board suitable candidates for appointment as directors to fill the seats on the Board. In addition, the Nomination Committee assesses the effectiveness of the Board and reviews annually its required mix of skills, expertise and experience from its Board members. It reviews annually the individual skills, expertise and experience of its board members.

During the period of review, the Nomination Committee had recommended to the Board the changes to the Audit Committee.

(c) Remuneration Committee

The Remuneration Committee charged with the responsibilities of recommending the remuneration framework to the directors' as well as the remuneration packages of Executive Directors of the Board. None of the Executive Directors participated in any way in determining their individual remuneration.

The Remuneration Committee comprises the following directors:-

- (i) Chua Boon Leong (Chairman)
- (ii) Azman Bin Che Onn
- (iii) Dato' Seri Tengku Baharuddin Ibni Almarhum Sultan Mahmud Al Muktafi Billah Shah

3. DIRECTORS' REMUNERATION

The Level and Make-up of Directors' Remuneration

The Company's policy on directors' remuneration is formulated to attract and retain the directors needed to run the Group successfully. The component parts of the remuneration for Executive Directors are structured so as to link rewards to corporate and individual performances. In the case of Non-Executive Directors, the level of remuneration should reflect the experience and level of responsibilities undertaken by the particular Non-Executive Director concerned.

Disclosure

The aggregate remuneration of directors for the financial year ended 31 December 2014 is as follows:-

	Fee (RM)	Salaries & Other Emoluments (RM)	Total (RM)
Current Directors

The above disclosure is made in accordance with Appendix 9C, item 10 of MMLR of Bursa Securities, a deviation from the Code which suggests separate disclosure of each director's remuneration. The Board is of the opinion that separate disclosure will impinge upon the director's right of privacy.

4. SHAREHOLDERS

Dialogue between the Company and Investors

The Board recognizes the importance of informing all material business matters affecting the Company to the investors. Announcements and release of quarterly financial results as well as other material matters to the Bursa Securities provides the overview of the Group's financial and operational performances.

Annual General Meeting

The AGM is the principal forum in which the Board reports on its stewardship to shareholders and account for the performance of the Company and of the Group.

At each AGM, the directors welcome the interaction and opportunity to gather the views of minority shareholders, who represent the largest proportion of shareholders attending the AGM. The shareholders (and proxies) may enquire, among others, on the resolutions being proposed at the AGM, business operations of the Group, the Group's past performance, its results and intended future performance.

The Board encourages shareholders to participate in question-and-answer session to which members of the Board would be available to respond to. This ensures a high level of accountability, transparency and identification with the Group's business operations, strategies and goals.

Where extraordinary general meetings are held to obtain shareholders' approval on business or corporate proposals, comprehensive circulars are dispatched to shareholders within prescribed period in accordance with regulatory and statutory provisions.

5. ACCOUNTABILITY AND AUDIT

Financial Reporting

The Board aims to provide and present a clear, balanced and meaningful assessment of the Group's financial performance and prospects at the end of the financial year.

With the assistance from the Audit Committee, the Board scrutinises the financial aspects of the audited financial statements and ensure that all annual and quarterly financial reports are prepared in accordance with the applicable approved accounting standards in Malaysia and the provisions of the Companies Act, 1965.

This is presented through the quarterly announcements of results, the Chairman's Statement and Review of Operations and also the Directors' Responsibilities Statement on the annual financial statements as shown in the Annual Report.

STATEMENT ON CORPORATE GOVERNANCE

(cont'd)

Internal Controls

The Board acknowledges their responsibilities for the Group's systems of internal control covering not only financial controls but also controls relating to operational, compliance and risk management. However, the Board recognizes that risks cannot be fully eliminated. As such, the internal control systems and procedures provide reasonable but not absolute assurance against any material misstatement, loss or fraud.

The internal audit was outsourced during the year to perform ongoing reviews to identify, evaluate, monitor and manage significant risks affecting the business and ensure that adequate and effective controls are in place. The findings of the internal audit functions are reported to the Audit Committee.

Relationship with the Auditors

The Company has established transparent and appropriate relationships with the Company's auditors through the Audit Committee. The external auditors continued to report to members of the Company on their findings which are included as part of the Company's financial reports with respect to each year's audit on the statutory financial statements.

From time to time, the auditors highlight to the Audit Committee and the Board on matters that require the Board's attention.

6. DIRECTORS' RESPONSIBILITIES STATEMENT

The directors are required under Paragraph 15.26(a) of the MMLR of the Bursa Securities to issue a statement explaining their responsibility for preparing the annual financial statements. The directors are also required by the Companies Act, 1965, to prepare financial statements which are in accordance with applicable approved accounting standards and give a true and fair view of the state of affairs of the Group and the Company at the end of the financial year and of the results and cash flows of the Group and the Company for the financial year then ended.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy the financial position of the Group and the Company and enable them to ensure the accounts comply with the Companies Act, 1965.

The directors are satisfied that in preparing the financial statements of the Group for the financial year ended 31 December 2014, the Group has used the appropriate accounting policies and applied them consistently and prudently. The directors are of the opinion that all relevant approved accounting standards have been followed and confirmed that the financial statements have been prepared on a going concern basis.

The directors have general responsibility for taking such steps to safeguard the assets of the Group and the Company and to detect and prevent fraud as well as other irregularities.

7. STATEMENT ON GOING CONCERN

The Board having reviewed the budgets and long-term business plans of the Company and of the Group, and has a reasonable expectation of the Company and the Group that it has adequate resources to continue in operation for the foreseeable future. Accordingly, the financial statements of the Company and of the Group have been prepared on a going concern basis.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

INTRODUCTION

Pursuant to paragraph 15.26(b) of Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities"), the Board of Directors ("Board") is pleased to provide a statement on the state of risk management and internal controls of the Group, which has been prepared in accordance with the "Statement on Risk Management & Internal Control: Guidelines for Directors of Public Listed Companies" where it outlines the key elements of the risk management and internal control systems within the Group for current financial year.

BOARD OF DIRECTOR'S RESPONSIBILITY

The Board acknowledges its responsibility for the Group's systems of risk management and internal control and the need to review its adequacy and integrity regularly. The Group has established an ongoing process in identifying, evaluating and managing significant risks facing by the Group. However, such a system is designed to manage rather than eliminate the risk of failure to achieve the Group's objectives and the system by its nature can only provide reasonable but not absolute assurance against material misstatement, fraud or loss.

The systems of risk management and internal control are maintained to achieve the following objectives:-

1. Safeguard shareholders' interest and assets of the Group;
2. Ensure the achievement of operational objectives;
3. Ensure compliance with regulatory requirements; and
4. Identify and manage risks affecting the Group

RISK MANAGEMENT FRAMEWORK

The Board, throughout the current financial year, identified and assessed key risks areas of the Group with the help of the Audit Committee and Management. This is achieved through monitoring of the Group's operational efficiency and profitability at its Board Meetings. The Board continually updated and identified the various risk factors that could have a potentially significant impact on the Group's short to midterm business objectives within the determined tolerance level of the Group.

In addition, senior management personnel of the Group are responsible for the identification and management of significant operational risks and internal controls affecting their respective business units. They are also involved in the formulation and implementation of appropriate risk management and control measures. This is done through internal resources and engagement of external professional firms on needs basis.

INTERNAL AUDIT

The Group outsourced its internal audit function to CGRM Infocomm Sdn Bhd ("CGRM"). CGRM is an independent professional firm, who supports the Audit Committee, and by extension, the Board, by providing an independent assurance on the effectiveness of the Group's systems of internal control.

During the year under review, CGRM assessed the adequacy and effectiveness of the Group's overall governance, risk assessment and system of internal control and compliance thereto. CGRM reports to the Audit Committee who in turn reports to the Board on its activities, significant audit results or findings and the necessary recommendations or actions needed to be taken by the management to rectify highlighted issues.

CGRM refers to the Guidelines on the Internal Audit Function issued by The Institute of Internal Auditors Malaysia, the Standards for the Professional Practice of Internal Auditing (SPPIA) and the Code of Ethics issued by the Institute of Internal Auditors Inc.

KEY ELEMENTS OF INTERNAL CONTROL

In order to achieve a sound control environment, the key elements in the framework of the Group's internal control systems are as follows:-

1. The Group has a clear vision, mission, corporate philosophy and strategic direction that serves as the road map of the Group's direction and the way forward which have been established and communicated to employees at all levels;
2. The Group has a well-defined organisational structure with clear lines of responsibility, reporting and accountability and is aligned to business and operations requirements;
3. Senior management adopted a "hands-on" approach in the daily operational activities of the Group;
4. Clearly documented internal policies and procedures and ISO Manual served as a guide towards achieving the Group vision, mission and quality policy. These policies and procedures are subject to regular review and improvement to meet changing business, operational and statutory reports needs;
5. Financial results were reviewed quarterly by the Board and the Audit Committee;
6. Exceptional and comparative reports were prepared for and reviewed by the Board as part of on-going monitoring of the Group's operations;
7. The Audit Committee and head of divisions/departments met half yearly to discuss operational, corporate, financial and key management issues;
8. An effective reporting system was maintained to ensure timely generation of financial information for management review;

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL (cont'd)

9. Regular audits (internal and ISO) boosted operations efficiencies and ensured consistency of services, products' quality and work standards; and
10. Management constantly monitors the gaps and highlighted issues through the conduct of follow-up audits and had given its commitment to improve on current processes and internal controls.

During the financial year 2014, the following activities were carried out by the Internal Auditors in specific subsidiaries:-

- a) Review of information technology general controls;
- b) Review of warehouse management system and accounting system application controls;
- c) Review of billing, collections and banking-in controls; and
- d) Follow-up review of occupational safety, health & environment

CONCLUSION

A number of internal control weaknesses were identified during the financial year ended 31 December 2014. The control weaknesses identified have been, or are being, addressed to ensure the integrity of internal controls. None of the weaknesses have resulted in any material losses, contingencies or uncertainties that would require mention in this Annual Report.

The Board has received verbal assurance from the Managing Director/President/Chief Executive Officer and the Deputy Presidents that the Group's risk management and internal control system is operating effectively, in all material aspects, based on the risk management and internal control system of the Group.

The Board and management of the Group view the development of the systems of risk management and internal control as an ongoing process. The Board and management maintain an ongoing commitment to strengthen the Group's risk management and internal control environment and processes.

The external auditors have reviewed this Statement on Risk Management and Internal Control for inclusion in this Annual Report for the year ended 31 December 2014 and reported to the Board that nothing has come to their attention that causes them to believe that this Statement on Risk Management and Internal Control is inconsistent with their understanding of the process adopted by the Board in reviewing the adequacy and integrity of the system of risk management and internal controls.

This Statement on Risk Management and Internal Control is made in accordance with the resolution of the Board dated 28 April 2015.

INDEPENDENT AUDITORS' REPORT

to the members of Haisan Resources Berhad

Report on the Financial Statements

We have audited the financial statements of Haisan Resources Berhad, which comprise the statements of financial positions as at 31 December 2014 of the Group and of the Company, and statement of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 38 to 103.

Directors' Responsibility for the Financial Statements

The Directors of the Company are responsible for the preparation and fair presentation of these financial statements in accordance the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the provisions of the Companies Act, 1965 in Malaysia, and for such internal control as the Directors determine are necessary to enable preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the Companies Act, 1965 in Malaysia so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2014 and of the results of the operations of the Group and of the Company and of the cash flows of the Group and of the Company for the financial year then ended.

Emphasis of Matter

We draw attention to Note 5.1 to the financial statements which discloses the premise upon which the Group and the Company have prepared their financial statements by applying the going concern basis in preparation of the financial statements, notwithstanding that the financial year ended 31 December 2014, the Group's and the Company's current liabilities exceeded their current assets RM104,503,601 and RM45,168,772 respectively. In addition, as stated in Note 20 to the financial statements, the Group is required to make full repayment of the Collateralised Loan Obligation ("CLO") of RM40 million. These conditions indicate the existence of a material uncertainty which may cast significant doubts about the Group's and the Company's ability to continue as going concerns.

However, as part of its corporate initiatives, the Group and the Company had submitted its application of a Proposed Regularisation Plan ("PRP") as disclosed in Note 36(a) to the financial statement and is actively seeking interested parties to realise its identified property, plant and equipment to increase its capital base and to generate cash flow to the Group. As at the date of this report the PRP is being reviewed by the relevant authorities and their approvals are pending.

The ability of the Group and the Company to operate as going concerns is dependent on successful outcome and implementation of the proposed restructuring plan, future profitable operations of the Group and of the Company to generate sufficient cash in the future to fulfill their obligations as and when they fall due and financial support from lenders and shareholders.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 1965, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the financial statements and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 9 to the financial statements.
- (c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- (d) The audit reports on the financial statements of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act except for the audit reports on the financial statements of certain subsidiaries as stated in Note 9 to the financial statements.

Other Matters

The supplementary information on Note 38 on page 103 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad. The Directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act, 1965 and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Neither during nor at the end of the financial year, was the Company a party to any arrangement whose object is to enable the Directors to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

OTHER STATUTORY INFORMATION REGARDING THE GROUP AND THE COMPANY

(I) AS AT THE END OF THE FINANCIAL YEAR

- (a) Before the statement of profit or loss and other comprehensive income and statement of financial position of the Group and of the Company were made out, the Directors took reasonable steps:
 - (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of impairment of receivables and have satisfied themselves that all known bad debts had been written off and that adequate impairment of receivables has been made; and
 - (ii) to ensure that any current assets other than debts, which were unlikely to realise their book values in the ordinary course of business had been written down to their estimated realisable values.
- (b) In the opinion of the Directors, the results of the operations of the Group and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature.

(II) FROM THE END OF THE FINANCIAL YEAR TO THE DATE OF THIS REPORT

- (c) The Directors are not aware of any circumstances:
 - (i) which would render the amounts written off for bad debts or the amount of the impairment of receivables in the financial statements of the Group and of the Company inadequate to any material extent; or
 - (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; and
 - (iii) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

OTHER STATUTORY INFORMATION REGARDING THE GROUP AND THE COMPANY (cont'd)

(II) FROM THE END OF THE FINANCIAL YEAR TO THE DATE OF THIS REPORT (cont'd)

(d) In the opinion of the Directors:

- (i) there has not arisen any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made; and
- (ii) no contingent or other liability has become enforceable, or is likely to become enforceable, within the period of twelve (12) months after the end of the financial year which will or may affect the ability of the Group or of the Company to meet their obligations as and when they fall due.

(III) AS AT THE DATE OF THIS REPORT

- (e) There are no charges on the assets of the Group and of the Company which have arisen since the end the financial year to secure the liabilities of any other person.
- (f) There are no contingent liabilities of the Group and of the Company which have arisen since the end of the financial year.
- (g) The Directors are not aware of any circumstances not otherwise dealt with in the report or financial statements which would render any amount stated in the financial statements of the Group and of the Company misleading.

AUDITORS

The Auditors, Wong Weng Foo & Co., retire at the forthcoming annual general meeting of the Company and do not wish to seek re-election as auditors of the Company.

Signed on behalf of the Board in accordance with a resolution of the Directors, dated 28 April 2015

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014

1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad ("Bursa Securities").

The registered office and the principal place of business of the Company are located at Lot 506, Jalan Pelabuhan Utara, Bandar Sultan Suleiman, 42000 Pelabuhan Klang, Selangor Darul Ehsan.

The financial statements are presented in Ringgit Malaysia ('RM'), which is also the Company's functional currency.

The financial statements were authorised for issue in accordance with a resolution by the Board of Directors 28 April 2015.

2. PRINCIPAL ACTIVITIES

The Company is principally engaged in investment holding and provision of management services to subsidiaries. The principal activities of the subsidiaries are set out in Note 9 to the financial statements. There have been no significant changes in the nature of the activities during the financial year.

3. BASIS OF PREPARATION

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the Companies Act, 1965 in Malaysia.

4. STANDARDS ISSUED BUT NOT YET EFFECTIVE

As at the date of authorisation of these financial statements, the following Standards, Amendments and Issues Committee ("IC") Interpretations have been issued by the Malaysian Accounting Standards Board ("MASB") but are not yet effective and have not been adopted by the Group and the Company:

4. STANDARDS ISSUED BUT NOT YET EFFECTIVE (cont'd)

The Group and the Company will adopt the above relevant pronouncements when they become effective in the respective financial periods. These pronouncements are not expected to have any effect to the financial statements of the Group and of the Company upon their initial application.

5. SIGNIFICANT ACCOUNTING POLICIES

5.1 Basis of Accounting

The financial statements of the Group and of the Company have been prepared under the historical cost convention except as otherwise stated in the financial statements and also on the basis of accounting principles applicable to a going concern.

The financial year ended 31 December 2014, the Group's and the Company's current liabilities exceeded their current assets by RM104,503,601 and RM45,168,772 respectively. In addition, as stated in Note 20 to the financial statements, the Group is required to make full repayment of the Collateralised Loan Obligation ("CLO") of RM40,000,000 which was due on 20 September 2010.

These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group's and the Company's ability to continue as going concerns.

As part of its corporate initiatives, the Group had submitted its application of a Proposed Regularisation Plan ("PRP") as disclosed in Note 36(a) to the financial statement and is actively seeking interested parties to realise its identified property, plant and equipment to increase its capital base and to generate cash flow to the Group. The going concern basis for the preparation of the financial statements of the Group and of the Company is therefore dependent upon the any new corporate initiatives to be proposed by the Directors, future profitable operations of the Group and the Company to generate sufficient cash in the future to fulfill their obligations as and when they fall due and financial support from the lenders and shareholders.

The Directors are of the opinion that the Group and the Company will be able to operate profitably in the foreseeable future, they will be able to obtain continuing financial support from the lenders and shareholders and be able to come up with a new corporate initiatives that are acceptable to Shareholders and therefore continue as going concerns and accordingly, realise their assets and discharge their liabilities in the normal course of business.

In view of the foregoing, the Directors consider that it is appropriate to prepare the financial statements of the Group and of the Company on a going concern basis, and accordingly, the financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or to amounts and classification of liabilities that may be necessary should the going concern basis for the preparation of the financial statements of the Group and of the Company be not appropriate.

The preparation of financial statements requires the Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent assets and contingent liabilities. In addition, the Directors are also required to exercise their judgment in the process of applying the accounting policies. The areas involving such judgments, estimates and assumptions are disclosed in Note 6 to the financial statements. Although these estimates and assumptions are based on the Directors' best knowledge of events and actions, actual results could differ from those estimates.

5.2 Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and all its subsidiaries made up to the end of the financial year using the purchase method of accounting.

Under the purchase method of accounting, the cost of a business combination is measured at the aggregate of fair values at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued plus any costs directly attributable to the business combination.

At the acquisition date, the cost of a business combination is allocated to identifiable assets acquired, liabilities assumed and contingent liabilities in the business combination which are measured initially at their fair values at the acquisition date. The excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities is recognised as goodwill (see Note 5.7.1 to the financial

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.2 Basis of Consolidation (cont'd)

statements on goodwill). If the cost of the business combination is less than the interest in the net fair value of the identifiable assets, liabilities and contingent liabilities, the Group will:

- (a) reassess the identification and measurement of the acquiree's identifiable assets, liabilities and contingent liabilities and the measurement of the cost of the business combination; and
- (b) recognise immediately in the statements of comprehensive income any excess remaining after that reassessment.

Subsidiaries are consolidated from the acquisition date, which is the date on which the Group effectively obtains control, until the date on which the Group ceases to control the subsidiaries. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the existence and effect of potential voting rights that are currently convertible or exercisable are taken into consideration.

Intragroup balances, transactions and unrealised gains and losses on intragroup transactions are eliminated in full. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. If a subsidiary uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to its financial statements in preparing the consolidated financial statements.

The gain or loss on disposal of a subsidiary, which is the difference between the net disposal proceeds and the Group's share of its net assets as of the date of disposal including the carrying amount of goodwill and the cumulative amount of any exchange differences that relate to the subsidiary, is recognised in the consolidated statement of comprehensive income.

Non-controlling interest is that portion of the profit or loss and net assets of a subsidiary attributable to equity interests that are not owned, directly or indirectly through subsidiaries, by the Group. It is measured at the non-controlling interest's share of the fair value of the subsidiaries' identifiable assets and liabilities at the acquisition date and the non-controlling interest's share of changes in the subsidiaries' equity since that date.

Where losses applicable to the non-controlling interest in a subsidiary exceed the non-controlling interest's in the equity of that subsidiary, the excess and any further losses applicable to the non-controlling are allocated against the Group's interest except to the extent that the non-controlling interest has a binding obligation and is able to make additional investment to cover the losses. If the subsidiary subsequently reports profits, such profits are allocated to the Group's interest until the non-controlling interest's share of losses previously absorbed by the Group has been recovered.

Non-controlling interest is presented in the consolidated statement of financial position within equity and is presented in the consolidated statement of changes in equity separately from equity attributable to equity holders of the Company.

Non-controlling interest in the results of the Group is presented in the consolidated statement of comprehensive income as an allocation of the total profit or loss for the financial year between non-controlling interest and equity holders of the Company.

Transactions with non-controlling interest are treated as transactions with parties external to the Group. Disposals to non-controlling interests result in gains and losses for the Group that are recorded in profit or loss. Purchases from non-controlling interest result in goodwill, being the difference between any consideration paid and the relevant share acquired of the carrying amount of net assets of the subsidiary.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.3 Property, Plant and Equipment and Depreciation

All items of property, plant and equipment are initially measured at cost. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when the cost is incurred and it is probable that the future economic benefits associated with the cost will flow to the Group and the cost of the asset can be measured reliably. The carrying amount of parts that are replaced is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in the statement of comprehensive incomes as incurred. Cost also comprises the initial estimate of dismantling and removing the asset and restoring the site on which it is located for which the Group is obligated to incur when the asset is acquired, if applicable.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the asset and which has different useful life, is depreciated separately.

After initial recognition, property, plant and equipment except for freehold land and buildings are stated at cost less accumulated depreciation and any accumulated impairment losses. The freehold land and buildings are stated at valuation, which is the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Freehold land and buildings are revalued at regular intervals of at least once in every five (5) years by the Directors using the 'open market value on existing use' basis with additional valuation in the intervening years where market conditions indicate that the carrying values of the revalued assets differ materially from the market value.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity under the asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is recognised in profit or loss. A revaluation deficit is recognized in profit or loss, except to the extent that it offsets an existing surplus on the same asset carried in the asset revaluation reserve.

Depreciation is calculated to write off the cost or valuation of the assets to their residual values on a straight line basis over their estimated useful lives.

The leasehold properties are amortised over the lease term ranging from 20 to 96 years on a straight line basis.

The principal depreciation rates of other property, plant and equipment are as follows:

Buildings, factory, godowns, warehouses, cold rooms, jetty and workshops	2% - 10%
Motor vehicles and forklifts	8% - 20%
Office equipment, furniture and fittings and equipment	5% - 20%
Plant and machinery	6% - 50%

Freehold land is not depreciated as it has an infinite life. Construction-in-progress represents building under construction, cold rooms and water filtration system and is stated at cost. Construction-in-progress is not depreciated until such time when the asset is available for use.

At each statements of financial position date, the carrying amount of an item of property, plant and equipment is assessed for impairment when events or changes in circumstances indicate that its carrying amount may not be recoverable. A write down is made if the carrying amount exceeds the recoverable amount (see Note 5.8 to the financial statements on impairment of assets).

The residual values, useful lives and depreciation method are reviewed at each financial year end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate. The Group anticipates that the residual values of its property, plant and equipment will not be significant.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014 (cont'd)

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.3 Property, Plant and Equipment and Depreciation (cont'd)

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any, and the carrying amount is included in the statements of comprehensive income and the revaluation surplus related to those assets, if any, is transferred directly to retained earnings.

5.4 Leases and Hire-Purchase

(a) Finance leases and hire purchase

Assets acquired under finance leases and hire purchase which transfer substantially all the risks and rewards of ownership to the Group are recognised initially at amounts equal to the fair value of the leased assets or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the leases, if this is practicable to determine; if not, the Group's incremental borrowing rate is used. Any initial direct costs incurred by the Group are added to the amount recognised as an asset. The assets are capitalised as property, plant and equipment and the corresponding obligations are treated as liabilities. The property, plant and equipment capitalised are depreciated on the same basis as owned assets.

The minimum lease payments are apportioned between the finance charges and the reduction of the outstanding liability. The finance charges are recognised in the statements of comprehensive income over the period of the lease term so as to produce a constant periodic rate of interest on the remaining lease and hire purchase liabilities.

(b) Operating leases

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

Lease payments under operating leases are recognised as an expense on a straight-line basis over the lease term.

5.5 Construction Contracts

Contract costs comprise costs related directly to the specific contract and those that are attributable to the contract activity in general and can be allocated to the contract and such other costs that are specifically chargeable to the customer under the terms of the contract.

When the total of costs incurred on construction contracts plus recognised profits (less recognised losses), exceeds progress billings, the balance is classified as amount due from customers for contract work. When progress billings exceed costs incurred plus recognised profits (less recognised losses), the balance is classified as amount due to customers for contract work.

5.6 Investments

(a) Subsidiaries

A subsidiary is an entity in which the Group and the Company have power to control the financial and operating policies so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has such power over another entity.

An investment in subsidiary, which is eliminated on consolidation, is stated in the Company's separate financial statements at cost less impairment losses, if any. On disposal of such an investment, the difference between the net disposal proceeds and its carrying amount is included in the statements of comprehensive income.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.6 Investments (cont'd)

(b) Associates

An associate is an entity over which the Group and the Company have significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

In the Company's separate financial statements, an investment in associate is stated at cost less impairment losses, if any.

An investment in associate is accounted for in the consolidated financial statements using the equity method of accounting. The investment in associate in the consolidated statements of financial position is initially recognised at cost and adjusted thereafter for the post acquisition change in the Group's share of net assets of the investment.

The interest in the associate is the carrying amount of the investment in the associate under the equity method together with any long term interest that, in substance, forms part of the Group's net investment in the associate.

The Group's share of the profit or loss of the associate during the financial year is included in the consolidated financial statements, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases. Distributions received from the associate reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Group's proportionate interest in the associate arising from changes in the associate's equity that have not been recognised in the associate's statements of profit or loss and other comprehensive income. Such changes include those arising from the revaluation of property, plant and equipment and from foreign exchange translation differences. The Group's share of those changes is recognised directly in equity of the Group.

Unrealised gains and losses on transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate; unrealised losses are also eliminated unless the transaction provides evidence on the impairment of the asset transferred.

When the Group's share of losses in the associate equals to or exceeds its interest in the associate, the carrying amount of that interest is reduced to nil and the Group does not recognise further losses unless it has incurred legal or constructive obligations or made payments on its behalf.

The most recent available financial statements of the associate are used by the Group in applying the equity method. Where the reporting dates of the financial statements are not coterminous, the share of results is arrived at using the latest financial statements for which the difference in reporting dates is no more than three (3) months. Adjustments are made for the effects of any significant transactions or events that occur between the intervening periods.

Upon disposal of an investment in associate, the difference between the net disposal proceeds and its carrying amount is included in the statements of profit or loss and other comprehensive income.

(c) Other investments

Non-current investments other than investments in subsidiaries and associate are stated at cost and an impairment in value is made where, in the opinion of the Directors, there is a decline in the value of such investments.

Where there has been a decline in the value of an investment, such a decline is recognised as an expense in the period in which the decline is identified.

Upon disposal of such an investment, the difference between the net disposal proceeds and its carrying amount is recognised in the statements of profit or loss and other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.7 Intangible Assets

5.7.1 Goodwill

Goodwill acquired in a business combination is recognised as an asset at the acquisition date and is initially measured at cost being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. After initial recognition, goodwill is measured at cost less accumulated impairment losses, if any. Goodwill is not amortised but instead tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying amount may be impaired. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill arising on acquisition of an associate is the excess of the cost of investment over the Group's share of the net fair value of net assets of the associates' identifiable assets, liabilities and contingent liabilities at the date of acquisition.

Goodwill relating to the associate is included in the carrying amount of the investment and is not amortised.

5.7.2 Other intangible assets

Other intangible assets are recognised only when the identifiability, control and future economic benefit probability criteria are met.

The Group recognises at the acquisition date separately from goodwill, an intangible asset of the acquiree if the fair value can be measured reliably, irrespective of whether the asset had been recognised by the acquiree before the business combination.

Intangible assets are initially measured at cost. The cost of intangible assets acquired in a business combination is their fair values as at the date of acquisition.

After initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised on a straight line basis over the estimated economic useful lives and are assessed for any indication that the asset may be impaired. If any such indication exists, the entity shall estimate the recoverable amount of the asset. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. The amortisation expense on intangible assets with finite lives is recognised in the statements of comprehensive income and is included within the other operating expenses line item.

An intangible asset has an indefinite useful life when based on the analysis of all the relevant factors; there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows to the Group. Intangible assets with indefinite useful lives are tested for impairment annually and wherever there is an indication that the carrying amount may be impaired. Such intangible assets are not amortised. Their useful lives are reviewed each period to determine whether events and circumstances continue to support the indefinite useful life assessment for the asset. If they do not, the change in the useful life assessment for indefinite to finite is accounted for as a change in accounting estimate in accordance with MFRS 108 *Accounting Policies, Changes in Accounting Estimates and Errors*.

Expenditure on an intangible item that is initially recognised as an expense is not recognised as part of the cost of an intangible asset at a later date.

An intangible asset is derecognised on disposal or when no future economic benefits are expected from its use. The gain or loss arising from the derecognition determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset is recognised in the statements of comprehensive income when the asset is derecognised.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.7 Intangible Assets (cont'd)

5.7.2 Other intangible assets (cont'd)

(a) Customer portfolios

Acquired customer portfolios are carried at cost less accumulated amortisation and any impairment losses. Acquired customer portfolios are amortised on the straight line basis to write off the cost to their residual values over an estimated useful life of five (5) years and are assessed for any indication that the asset may be impaired.

(b) Computer software

Computer software is carried at cost less accumulated amortisation and any impairment losses.

Computer software in development is capitalised when the Group can demonstrate the technical feasibility of completing the asset so that it will be available for use or sale, its intention to complete, its intention to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development project and the ability to measure reliably the expenditure during the development.

The expenditure capitalised includes the costs of the software licence or source code acquired, direct labour costs and an appropriate portion of relevant overheads. The capitalised expenditure is amortised on a straight line basis over an estimated useful life of five (5) years and is assessed for any indication that the asset may be impaired.

(c) Trademark

Trademark acquired has finite useful life and is shown at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is calculated using the straight line method to allocate the cost of trademark over its estimated useful life of ten (10) years.

5.8 Impairment of Assets

The carrying amounts of assets, except for financial assets (excluding investments in subsidiaries and associate), inventories, assets arising from construction contracts and non-current assets (or disposal groups) held for sale are reviewed at each statements of financial position date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

Goodwill and intangible assets that have an indefinite useful life are tested annually for impairment or more frequently if events or changes in circumstances indicate that the goodwill or intangible asset might be impaired.

The recoverable amount of an asset is estimated for an individual asset. Where it is not possible to estimate the recoverable amount of the individual asset, the impairment test is carried out on the cash generating unit ('CGU') to which the asset belongs. Goodwill acquired in a business combination is from the acquisition date, allocated to each of the Group's CGU or groups of CGU that are expected to benefit from the synergies of the combination giving rise to the goodwill irrespective of whether other assets or liabilities of the emphasis are assigned to those units or groups of units.

The recoverable amount of an asset or CGU is the higher of its fair value less cost to sell and its value in use.

In estimating value in use, the estimated future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised in the statements of comprehensive income when the carrying amount of the asset or the CGU, including the allocated goodwill or intangible asset, exceeds the recoverable amount of the asset or the CGU. The total impairment loss is allocated, first, to reduce the carrying amount of any goodwill allocated to the CGU and then to the other assets of the CGU on a pro-rata basis of the carrying amount of each asset in the CGU.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014 (cont'd)

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.8 Impairment of Assets (cont'd)

The impairment loss is recognised in the statements of comprehensive income immediately except for the impairment on a revalued asset where the impairment loss is recognised directly against the revaluation reserve to the extent of the surplus credited from the previous revaluation for the same asset with the excess of the impairment loss charged to the statements of comprehensive income.

An impairment loss on goodwill is not reversed in subsequent periods. An impairment loss for other assets is reversed if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment loss was recognised.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Such reversals are recognised as income immediately in the statements of comprehensive income except for the reversal of an impairment loss on a revalued asset where the reversal of the impairment loss is treated as a revaluation increase and credited to the revaluation reserve account of the same asset. However, to the extent that an impairment loss in the same revalued asset was previously recognised in the statements of comprehensive income, a reversal of that impairment loss is also recognised in the statements of comprehensive income.

5.9 Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost is determined using the first-in, first-out or weighted average basis. The cost of raw materials and consumables comprises all costs of purchase plus the cost of bringing the inventories to their present location and condition.

The cost of work-in-progress and finished goods includes the costs of raw materials, direct labour and an appropriate proportion of production overheads.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

5.10 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, an equity instrument of another enterprise, a contractual right to receive cash or another financial asset from another enterprise, or a contractual right to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially favourable to the Group.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or a contractual obligation to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially unfavourable to the Group.

5.10.1 Financial instruments recognised on the statements of financial position

Financial instruments are recognised on the statements of financial position when the Group has become a party to the contractual provisions of the instrument.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividend and losses and gains relating to a financial instrument or a component that is a financial liability shall be recognised as income or expense in the statements of comprehensive income. Distributions to holders of an equity instrument are debited directly to equity, net of any related tax effect. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle on a net basis or to realise the asset and settle the liability simultaneously.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.10 Financial Instruments (cont'd)

5.10.1 Financial instruments recognised on the statements of financial position (cont'd)

(a) Receivables

Trade receivables and other receivables, including amounts owing by an associate and related parties, are classified as loans and receivables under MFRS 132 *Financial Instruments: Disclosure and Presentation*.

Receivables are carried at anticipated realisable value. Known bad debts are written off and impairment of receivables is considered to be doubtful of collection.

Receivables are not held for trading purposes.

(b) Cash and cash equivalents

Cash and cash equivalents include cash and bank balances, bank overdrafts, deposits and other short term, highly liquid investments with original maturities of three (3) months or less, which are readily convertible to cash and are subject to insignificant risk of changes in value. For the purpose of the cash flow statements, cash and cash equivalents are presented net bank overdrafts and pledged deposits.

(c) Payables

Liabilities for trade and other amounts payable, including amounts owing to an associate and related parties, are recognised at the fair value of the consideration to be paid in the future for goods and services received.

(d) Interest bearing loans and borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable costs. After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost with any difference between cost and redemption value being recognised in the statements of comprehensive income over the period of the loans and borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve (12) months after the statements of financial position date.

All borrowing costs are recognised in the statements of comprehensive income in the period in which they are incurred.

(e) Equity instruments

Ordinary shares are recorded at the nominal value and proceeds in excess of the nominal value of shares issued, if any, are accounted for as share premium. Both ordinary shares and share premium are classified as equity. Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax benefit. Otherwise, they are charged to the statements of comprehensive income.

Dividends to shareholders are recognised in equity in the period in which they are declared.

If the Company reacquires its own equity instruments, the consideration paid, including any attributable transaction costs is deducted from equity as treasury shares until they are cancelled. No gain or loss is recognised in the statements of comprehensive income on the purchase, sale, issue or cancellation of the Company's own equity instruments. Where such shares are issued by resale, the difference between the sales consideration and the carrying amount is shown as a movement in equity.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.10 Financial Instruments (cont'd)

5.10.1 Financial instruments recognised on the statements of financial position (cont'd)

(f) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Fair value arising from financial guarantee contracts are classified as deferred income and is amortised to profit or loss using a straight-line method over the contractual period or, when there is no specified contractual period, recognised in profit or loss upon discharge of the guarantee. When settlement of a financial guarantee contract becomes probable, an estimate of the obligation is made. If the carrying value of the financial guarantee contract is lower than the obligation, the carrying value is adjusted to the obligation amount and accounted for as provision.

5.11 Income taxes

Income taxes include all domestic and foreign taxes on taxable profit. Income taxes also include other taxes, such as withholding taxes, which are payable by foreign subsidiaries and an associate on distributions to the Group and the Company, and real property gains taxes payable on disposal of properties.

Taxes in the statements of comprehensive income comprise current tax and deferred tax.

(a) Current tax

Current tax is the amount of income taxes payable or receivable in respect of the taxable profit or loss for a period.

Current tax for the current and prior periods is measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted by the statements of financial position date.

(b) Deferred tax

Deferred tax is recognised in full using the liability method on temporary differences arising between the carrying amount of an asset or liability in the statements of financial position and its tax base.

Deferred tax is recognised for all temporary differences, unless the deferred tax arises from goodwill or the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit.

A deferred tax asset is recognised only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

The carrying amount of a deferred tax asset is reviewed at each statements of financial position date. If it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised, the carrying amount of the deferred tax asset will be reduced accordingly. When it becomes probable that sufficient taxable profit will be available, such reductions will be reversed to the extent of the taxable profit.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred income taxes relate to the same taxation authority.

Deferred tax will be recognised as income or expense and included in the statements of comprehensive income for the period unless the tax relates to items that are credited or charged, in the same or a different period, directly to equity, in which case the deferred tax will be charged or credited directly to equity.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.11 Income taxes (cont'd)

(b) Deferred tax (cont'd)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the statements of financial position date.

5.12 Provisions

Provisions are recognised when there is a present obligation, legal or constructive, as a result of a past event, and when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where the effect of the time value of money is material, the amount of a provision will be discounted to its present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at each statements of financial position date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision will be reversed.

Provisions are not recognised for future operating losses. If the Group has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

5.13 Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise this contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The Group does not recognise a contingent asset but discloses its existence where the inflows of economic benefits are probable, but not virtually certain.

In the acquisition of subsidiaries by the Group under business combinations, contingent liabilities assumed are measured initially at their fair value at the acquisition date, irrespective of the extent of any non-controlling interest.

5.14 Employee Benefits

5.14.1 Short term employee benefits

Wages, salaries, social security contributions, paid annual leave, paid sick leave, bonuses and non-monetary benefits are recognised as an expense in the financial year when employees have rendered their services to the Group.

Short term accumulating compensated absences such as paid annual leave are recognised as an expense when employees render services that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

Bonuses are recognised as an expense when there is a present, legal or constructive obligation to make such payments, as a result of past events and when a reliable estimate can be made of the amount of the obligation.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014 (cont'd)

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.14 Employee Benefits (cont'd)

5.14.2 Defined contribution plans

The Company and its subsidiaries incorporated in Malaysia make contributions to a statutory provident fund and foreign subsidiaries make contributions to their respective countries' statutory pension schemes. The contributions are recognised as a liability after deducting any contributions already paid and as an expense in the period in which the employees render their services.

5.14.3 Share-based payments

The Group operates an equity-settled share-based compensation plan, allowing the employees of the Group to acquire ordinary shares of the Company at predetermined prices. The total fair value of share options granted to employees is recognised as an expense with a corresponding increase in the share options reserve within equity over the vesting period and taking into account the probability that the options will vest.

The fair value of share options is measured at grant date, taking into account, if any, the market vesting conditions upon which the options were granted but excluding the impact of any non-market vesting conditions.

Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable on the vesting date.

At each statements of financial position date, the Group revises its estimates of the number of options that are expected to become exercisable on vesting date. It recognises the impact of the revision of original estimates, if any, in the statements of comprehensive income, and a corresponding adjustment to equity over the remaining vesting period. The equity amount is recognised in the share options reserve until the options are exercised, upon which it will be transferred to share premium, or until the options expires, upon which it will be transferred directly to retained earnings.

The proceeds received net of any directly attributable transaction costs are credited to equity when the options are exercised.

For options granted prior to 31 December 2004, no compensation cost or obligation is recognised. When the options are exercised, equity is increased by the amount of the proceeds received. This is in accordance with the transitional provision of MFRS 2 *Share-based Payment*. The Company has neither options granted after 31 December 2004 which were yet to be vested as at 1 January 2006, nor options granted after 1 January 2006. MFRS 2 will apply to the Company's new grants of options in the future.

5.15 Foreign Currencies

5.15.1 Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

5.15.2 Foreign currency translations and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

Non-monetary items which are measured at fair values denominated in foreign currencies are translated at the foreign exchange rate ruling at the date when the fair values was determined.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.15 Foreign Currencies (cont'd)

5.15.2 Foreign currency translations and balances (cont'd)

When a gain or loss on a non-monetary item is recognised directly in equity, any corresponding exchange gain or loss is recognised directly in equity. When a gain or loss on a non-monetary item is recognised in the profit or loss, any corresponding exchange gain or loss is recognised in the profit or loss.

5.15.3 Foreign operations

Financial statements of foreign operations are translated at financial year end exchange rates with respect to the assets and liabilities, and at exchange rates at the dates of the transactions with respect to the statements of comprehensive income. All resulting translation differences are recognised as a separate component of equity.

Foreign currency differences are recognised in exchange reserve. On disposal, the accumulated exchange reserve is recognised in the consolidated statements of comprehensive income as part of the gain or loss on sale.

Goodwill and fair value adjustments to the assets and liabilities arising from the acquisition of a foreign operation are treated as assets and liabilities of the acquired entity and translated at the exchange rate ruling at the statements of financial position date.

5.15.4 Net investment in foreign operations

Exchange differences arising from monetary items that in substance form part of the Company's net investment in foreign operations, are recognised in the Company's statements of profit or loss and other comprehensive income.

5.16 Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable net of discounts and rebates.

Revenue is recognised to the extent that it is probable that the economic benefits associated with the transaction will flow to the Group, and the amount of revenue and the cost incurred or to be incurred in respect of the transaction can be reliably measured and specific recognition criteria have been met for each of the Group's activities as follows:

(a) Sale of goods

Revenue from sale of goods is recognised when significant risks and rewards of ownership of the goods have been transferred to the customer and where the Group retains no continuing managerial involvement over the goods, which coincides with delivery of goods and services and acceptance by customers.

(b) Services

Revenue in respect of the rendering of services is recognised upon performance of services.

(c) Construction contracts

Profits from contract works are recognised on a percentage of completion method. Percentage of completion is determined on the proportion of contract costs incurred to date against total estimated costs where the outcome of the project can be estimated reliably.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When the outcome of a contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable and contract costs are recognised as an expense in the period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014 (cont'd)

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.16 Revenue Recognition (cont'd)

- (d) Dividend income

Dividend income is recognised when the right to receive payment is established.

- (e) Interest income

Interest income is recognised as it accrues, using the effective interest method.

- (f) Rental income

Rental income is recognised for on a straight line basis over the lease term of an ongoing lease.

5.17 Earnings per Share

The Group presents basic and dilutive earnings per share ('EPS') data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. For the diluted earnings per share calculation, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares.

5.18 Non-Current Assets (or Disposal Groups) Held for Sale

Non-current assets (or disposal groups) are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. For this to be the case, the asset (or disposal group) must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets (or disposal groups) and its sale must be highly probable.

The sale is expected to qualify for recognition as a completed sale within one (1) year from the date of classification. However, an extension of the period required to complete the sale does not preclude the assets (or disposal groups) from being classified as held for sale if the delay is caused by events or circumstances beyond the control of the Group and there is sufficient evidence that the Group remains committed to its plan to sell the assets (or disposal groups).

Immediately before the initial classification as held for sale, the carrying amounts of the non-current assets (or all the assets and liabilities in a disposal group) are measured in accordance with applicable MFRSs. On initial classification as held for sale, non-current assets or disposal groups (other than investment properties, deferred tax assets, employee benefits assets and financial assets carried at fair value) are measured at the lower of carrying amount before the initial classification as held for sale and fair value less costs to sell. The differences, if any, are recognised in the statements of comprehensive income as impairment loss.

Non-current assets (or disposal groups) held for sale are classified as current assets (and current liabilities, in the case of non-current liabilities included within disposal groups) on the face of the statements of financial position and are stated at the lower of carrying amount immediately before initial classification and fair value less costs to sell and are not depreciated. Any cumulative income or expense recognised directly in equity relating to the non-current asset (or disposal group) classified as held for sale is presented separately.

If the Group has classified an asset (or disposal group) as held for sale but subsequently the criteria for classification is no longer met, the Group ceases to classify the asset (or disposal group) as held for sale. The Group measures a non-current asset that ceases to be classified as held for sale (or ceases to be included in a disposal group classified as held for sale) at the lower of:

- (a) its carrying amount before the asset (or disposal group) was classified as held for sale, adjusted for any depreciation, amortisation or revaluations that would have been recognised had the asset (or disposal group) not been classified as held for sale;
- (b) its recoverable amount at the date of the subsequent decision not to sell.

5. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

5.19 Segment Reporting

Segment reporting is presented for enhanced assessment of the Group's risks and returns. Business segments provide products or services that are subject to risks and returns that are different from those of other business segments. Geographical segments provide products or services within a particular economic environment that is subject to risks and returns that are different from those components operating in other economic environments.

Segment revenue, expense, assets and liabilities are those amounts resulting from the operating activities of a segment that are directly attributable to the segment and the relevant portion that can be allocated on a reasonable basis to the segment. Segment revenue, expense, assets and liabilities are determined before intragroup balances and intragroup transactions are eliminated as part of the consolidation process, except to the extent that such intragroup balances and transactions are between Group enterprises within a single element.

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments used in preparing the financial statements are continually evaluated by the Directors and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

6.1 Critical judgments made in applying accounting policies

The following are judgments made by management in the process of applying the Group's accounting policies that have a significant effect on the amounts recognised in the financial statements.

Contingent liabilities

Determination of the treatment of contingent liabilities is based on management's view of the expected outcome of the contingencies after consulting legal counsel for litigation cases and internal an experts to the Group for matters in the ordinary course of business.

6.2 Key Sources of Estimation Uncertainty

The following are key assumptions concerning the future and other key sources of estimation uncertainty at the statements of financial position date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Impairment of goodwill on consolidation

The Group tests goodwill for impairment annually in accordance with its accounting policy. See accounting policy Note 5.8 to the financial statements on impairment of goodwill.

For the purposes of assessing impairment, goodwill is allocated to cash-generating units that are expected to benefit from the synergies of the business combination in which the goodwill arose.

Significant judgment is required in the estimation of the present value of future cash flows generated by the cash-generating units, which involve uncertainties and are significantly affected by assumptions used and judgment made regarding estimates of future cash flows and discount rates. Changes in assumptions could significantly affect the results of the Group's tests for impairment of goodwill.

(b) Depreciation of property, plant and equipment

The cost of property, plant and equipment is depreciated on a straight line basis over the assets' useful lives. The estimated useful lives applied by the Group as disclosed in Note 5.3 to the financial statements reflect the Directors' estimate of the period that the Group expects to derive future economic benefits from the use of the Group's property, plant and equipment. These are common life expectancies applied in the various business segments of the Group. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014 (cont'd)

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS (cont'd)

6.2 Key Sources of Estimation Uncertainty (cont'd)

(c) Impairment of receivables

The Group makes impairment of receivables based on an assessment of the recoverability of receivables. Impairment are applied to receivables where events or changes in circumstances indicate that the carrying amounts may not be recoverable. The management specifically analyses historical bad debts, customer concentration, customer creditworthiness, current economic trends and changes in customer payment terms when making a judgment to evaluate the adequacy of impairment of receivables. Where expectations differ from the original estimates, the differences will impact the carrying value of receivables.

(d) Income taxes

The Group is subject to income taxes of different jurisdictions. Significant judgment is required in determining the capital allowances and deductibility of certain expenses during the estimation of the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognised liabilities for tax based on estimates of assessment of the tax liability due. Where the final tax outcome is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions, where applicable, in the period in which such determination is made.

(e) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses and unabsorbed capital allowances to the extent that it is probable that taxable profit will be available against which the tax losses and capital allowances can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profit together with future tax planning strategies.

(f) Fair values of borrowings

The fair values of borrowings are estimated by discounting future contractual cash flows at the current market interest rates available to the Group for similar financial instruments. It is assumed that the effective interest rates approximate the current market interest rates available to the Group based on its size and its business risk.

(g) Write-down for obsolete or slow moving inventories

The Group writes down its obsolete inventories based on an assessment of their estimated net selling price. Inventories are written down when events or changes in circumstances indicate that the carrying amounts may not be recoverable. The management specifically analyses sales trend and current economic trends when making a judgment to evaluate the adequacy of the write-down for obsolete or slow-moving inventories. Where expectations differ from the original estimates, the differences will impact the carrying amount of inventories.

(h) Construction contracts

The Group recognises contract profits based on the stage of completion method. The stage of completion of a construction contract is determined based on the proportion that the contract costs incurred to-date bear to the estimated total costs for contract. When it is probable that the estimated total contract costs of a contract will exceed the total contract revenue of the contract, the expected loss on the contract is recognised as an expense immediately. Significant judgement is required in the estimation of total contract costs. Where the actual total contact costs is different from the estimated total contract costs, such differences will impact the contract profits or losses recognised.

(i) Impairment of assets

The Group determines whether an asset is impaired by evaluating the extent to which the recoverable amount of an asset is less than its carrying amount. This evaluation is subject to changes such as market performance, economic and political situation of the country.

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS (cont'd)

6.2 Key Sources of Estimation Uncertainty (cont'd)

(i) Impairment of assets (cont'd)

Recoverable amount is measured at the higher of the fair value less cost to sell for that asset and its value in use. The value in use is the net present value of the projected future cash flows derived from that asset discounted at an appropriate discount rate. For such discounted cash flow method, it involves the use of estimated future results and a set of assumptions to reflect its income and cash flows. Judgment has been used to determine the discount rate for the cash flows and the future growth of the business.

20. TERM LOANS

Secured

The term loans of the Group are secured by way of:

- (i) Facilities agreement;
- (ii) Legal charge on certain property, plant and equipment for land of the Group as disclosed in Note 7 to the financial statements;
- (iii) Deed of assignment over certain subsidiaries' properties and rental proceeds;
- (iv) Legal mortgage over the machinery and equipment of certain subsidiaries;
- (v) Corporate guarantee by the Company for facilities granted to subsidiaries as discharged disclosed in Note 33 to the financial statements; and
- (vi) Joint and several guarantees by certain Directors and third parties.

The term loans bear interest ranging from 6.90% to 16.50% (2013– 6.90% to 16.50%) per annum.

Unsecured

The Company had on 9 September 2005 entered into a Facility Agreement with EON Bank Berhad (the borrower) and CapOne Berhad (the issuer) for an unsecured fixed term loan facility under the Primary Collateralised Loan Obligation Programme up to maximum principal amount of RM40,000,000. Pursuant to the said Facility Agreement, the Company is required to invest in the unquoted bonds issued by CapOne Berhad up to ten percent (10%) of the loan principal amount as detailed in Note 11 to the financial statements.

The unsecured fixed term loan bears interest at the rate of 7.13% (2013 - 7.13%) per annum, which is payable semi-annually. The loan principal is repayable in full at the end of the fifth (5th) year on 20 September 2010.

Repayment terms

Term loans of the Group are repayable as follows:

Repayable as follows:	Group		Company	
	2014 RM	2013 RM	2014 RM	2013 RM
Less than 1 year	51,677,727	56,405,149	37,087,154	37,087,154

20. TERM LOANS (cont'd)

Significant covenants for the secured term loans of certain subsidiaries are as follows:

- (i) The subsidiaries shall not declare or pay any dividend or bonus issue or make any distribution if there are any monies owing under the credit facilities without the bank's prior written consent;
- (ii) Gearing ratio of the Group shall not exceed to 3.0 times; and
- (iii) Cross default on any indebtedness which is not discharged at maturity or when called or goes into default under, or commits a breach of, any instrument or agreement relating to such indebtedness.

As at previous and current financial year, the following covenants were breached by certain subsidiaries:

- (i) Gearing ratio of the Group exceeded 3.0 times; and
- (ii) Subsidiary declared dividend during the financial year without the prior written consent of the lenders.

As such, the lenders could declare the full sum outstanding of the term loans to be immediately due and payable.

In view of the cross default covenants in the term loans of the Group which render the term loans of the Group to be immediately due and payable, the entire term loans of the Group had been reclassified as current liabilities since 2009.

Information on repricing analysis of term loans is disclosed in Note 35 to the financial statements.

21. REVOLVING CREDITS

The revolving credits of the Group are secured by:

- (i) Legal charge on certain property, plant and equipment of certain subsidiaries as disclosed in Note 7 to the financial statements; and
- (ii) Corporate guarantee by the Company and an indirect subsidiary for facilities granted to subsidiaries.

The revolving credits of the Group bear interest ranging from 6.85% to 7.00% (2013- 6.85% to 7.00%) per annum.

Significant covenants for the revolving credits of the Group are as follows:

- (i) The subsidiaries shall not declare or pay any dividend or bonus issue or make any distribution if there are any monies owing under the credit facilities without the bank's prior written consent; and
- (ii) Gearing ratio of the Group shall not exceed 3.0 times

As at previous and current financial year, the following covenants were breached by certain subsidiaries:

- (i) The subsidiaries declared dividend during the financial year without the prior written consent of the lenders; and
- (ii) Gearing ratio of the Group exceeded 3.0 times

Information on repricing analysis of revolving credits is disclosed in Note 35 to the financial statements.

34. SEGMENTAL INFORMATION

(i) Reporting format

Segment information is presented in respect of the Group's business and geographical segments. The primary segment reporting format is determined to be business segments as the Group's risks and returns are affected predominantly by differences in the products and services it produces.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014 (cont'd)

34. SEGMENTAL INFORMATION (cont'd)

(ii) Business segments

The Group is organised into three (3) main business segments:

Engineering	:	Refrigeration, civil, mechanical, electrical, general engineering works and construction, trading of refrigerating equipment and spare parts
Temperature controlled logistics/ warehousing	:	Temperature-controlled logistics services, handling, value added processing, refrigerated transportation and distribution services, leasing of cold rooms, bonded and general warehousing services
Ice manufacturing	:	Manufacturing and marketing of tube ice
Others	:	Businesses involved in investment holding, provision of information technology maintenance and support services

(iii) Geographical segments

The Group operates mainly in Malaysia and Peoples' Republic of China. In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of the customers. Segment assets are based on the geographical location of assets. The composition of each geographical segment is as follows:

(a) Malaysia	:	Engineering of industrial refrigeration, ice manufacturing, temperature controlled logistics, bonded and general warehousing, investment holding and provision of information technology maintenance and support services
(b) Peoples' Republic of China	:	Temperature controlled logistics
(c) Vietnam	:	Temperature controlled logistics

(iv) Allocation basis and inter segment pricing

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items mainly comprise interest-earning assets and revenue, interest-bearing loans, borrowings and expenses, corporate assets, liabilities and expenses. Inter-segment prices between business segments are set on an arm's length basis in a manner similar to transactions with third parties. Segment revenue, expense and results include transfer between business segments. These segments are eliminated on consolidation.

Segment capital expenditure is the total cost incurred during the year to acquire segment assets that are expected to be used for more than one period.

35. FINANCIAL INSTRUMENTS

(a) Financial risk management objectives and policies

The Group's financial risk management objective is to optimise value creation for shareholders whilst minimising the potential adverse affects on financial performance arising from fluctuations in foreign currency exchange, interest rates and the unpredictability of the financial markets.

The Group operates within an established risk management framework and clearly defined guidelines that are regularly reviewed by the Board of Directors and does not trade in derivative financial instruments. Financial risk management is carried out through risk review programmes, internal control systems, insurance programmes and adherence to the Group financial risk management policies. The Group is exposed mainly to foreign currency exchange risk, liquidity and cash flow risk, interest rate risk and credit risk. Information on the management of the related exposures is detailed below:

(i) Foreign currency risk

Subsidiaries operating in Vietnam, Cayman Islands and People's Republic of China have assets and liabilities together with expected cash flows from anticipated transactions denominated in foreign currencies that give rise to foreign exchange exposures.

The Group monitors the movement in foreign currency exchange rates closely to ensure their exposures are minimised.

35. FINANCIAL INSTRUMENTS (cont'd)

(a) Financial risk management objectives and policies (cont'd)

(ii) Interest rate risk

Interest rate risks mainly arise from the Group's debt obligations. The Group reviews its debt portfolio, taking into account the nature and requirements of its business as well as the current business and economic environment.

The Group's income and operating cash flows are substantially independent of changes in market interest rates. Interest rate exposure arising from the Group's borrowings is managed through the use of fixed and floating rate borrowings. The Group's deposits are placed at fixed rates and management endeavors to obtain the best rate available in the market.

Sensitivity analysis for interest rate risk:-

As at 31 December 2014, if interest rates at the date had been 100 basis points lower with all other variables held constant, profit before income for the year would have been RM1,128,709 (2013 : RM1,372,713) higher and vice versa.

Effective interest rates and repricing analysis

In respect of interest-earning financial assets and interest-bearing financial liabilities, the following table indicates their effective interest rates at the statements of financial position date and the periods in which they reprice or mature, whichever is earlier.

(iii) Credit risk

Cash deposits and receivables may give rise to credit risk which requires the loss to be recognised if a counter party fails to perform as contracted. The counter parties are the Group's customers and financial institutions in which it places funds. It is the Group's policy to monitor continuously the financial standing of these counter parties on an ongoing basis to ensure that the Group is exposed to minimal credit risk.

As at statements of financial position date, other than the amounts owing from subsidiaries 99.8% (2013 – 99.6%) of the total receivables of the Group and the Company, there were no significant concentrations of credit risk. The maximum exposure to credit risk for the Group and for the Company is represented by the carrying amount at each financial asset in the statements of financial position.

In respect of the deposits, cash and bank balances placed with major financial institutions in Malaysia, Vietnam, Singapore, Philippines and Hong Kong, the Directors believe that the possibility of non-performance by these financial institutions is remote on the basis of their financial strength.

(iv) Liquidity and cash flow risk

The Group seeks to achieve a balance between certainty of funding even in difficult times for the markets or the Group and a flexible, cost effective borrowing structure. This is to ensure that at the minimum, all projected net borrowing needs are covered by committed facilities. Also, the objective for debt maturity is to ensure that the amount of debt maturing in any one year is not beyond the Group's means to repay and refinance.

35. FINANCIAL INSTRUMENTS (cont'd)

(b) Fair values

The carrying amounts of the financial instruments of the Group and of the Company as at 31 December 2014 approximate their fair values except as set out below:

	Group		Company	
	Carrying amount RM	Fair value RM	Carrying amount RM	Fair value RM
As at 31 December 2014				
Recognised				
Hire purchase and lease payables	389,750	343,077	-	-

Hire purchase and lease payables	140,756	126,152	-	-
Unrecognised				
Contingent liabilities	-	-	-	@

* It was not practical to estimate the fair value of the Group's and Company's investments in unquoted shares due to the lack of comparable quoted market prices and inability to estimate fair value without incurring excessive costs.

@ It was not practical to estimate the fair value of the Group's and Company's contingent liabilities due to the lack of comparable market information and inability to estimate fair value without incurring excessive costs.

The methods and assumptions used by management to determine the fair values of other financial instruments are as follows:

- (i) In respect of cash and cash equivalents, receivables, deposits and prepayments, payables, accruals and short term borrowings, the carrying amounts approximates fair value due to relatively short term nature of these financial instruments.
- (ii) The fair value of the borrowings which is accounted for as long term financial liabilities is estimated by discounting future contractual cash flows at the current market interest rate available to the Group for similar financial instruments.

(d) Capital Management

The Group manages its capital to ensure that entities within the Group will be able to maintain an optimal capital structure so as to support their businesses and maximise shareholders' value. To achieve this objective, the Group may make adjustments to the capital structure in view of changes in economic conditions, such as adjusting the amount of dividend payment, returning of capital to shareholders or issuing new shares.

The Group manages its capital based on debt-to-equity ratio. The Group's strategies were unchanged from the previous financial year. The debt-to-equity ratio is calculated as total borrowings and payables divided by total equity.

35. FINANCIAL INSTRUMENTS (cont'd)

The hearing of the suit had been held on 23 April 2012 after few adjournments. The Court had rejected the claims made by the third party against the Subsidiaries. However, on 21 May 2012, the Subsidiaries received a notice of appeal dated 8 May 2012 ("Appeal") filed by Wall's (China) Co., Ltd to the Shanghai No. 1 Intermediate People's Court against the Judgment dated 23 April 2012. The hearing for the Appeal had been conducted on 30 May 2012. On 14 November 2012, the Subsidiaries were informed by the Appeal Court via a written judgment dated 12 November 2012 that the Appeal Court had revoked the judgment made by the People's Court on 23 April 2012, and the suit remanded to the People's Court of Changning District, Shanghai ("the ChangningCourt") for a new trial. The suit is currently set for retrial. The hearing for the new trial was held on 25 December 2013.

The Subsidiaries had on 7 February 2014, received a written judgment dated 29 January 2014 against this civil suit ("the Judgment") issued by the ChangningCourt, where the ChangningCourt had ruled, that:

- (i) The Direct Warehouse Management and Direct Marketing Distribution Service Contract and its supplemental agreement which were entered into between the third party and the Subsidiaries were terminated on 7 August 2012;
- (ii) The Subsidiaries to compensate the third party for the loss with regard to the expired goods of RMB1,076,249.44, within ten (10) days from the effective date of the Judgment;
- (iii) The Subsidiaries to compensate the third party for the disposal costs with regard to the expired goods of RMB27,595.99, within ten (10) days from the effective date of the Judgment; and
- (iv) The other petitions filed by the third party against the Subsidiaries were dismissed.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2014 (cont'd)

37. MATERIAL LITIGATION (cont'd)

The Subsidiaries on 22 February 2014, filed an appeal to the Shanghai No. 1 Intermediate People's Court ("the Court"), against the judgment dated 29 January 2014 issued by the Changning Court. The hearing on the appeals was fixed on 8 April 2014 at the Court. The Subsidiaries had on 26 June 2014 received a notice dated 10 June 2014 from the Court informing the Subsidiaries that the appeals filed by both the Subsidiaries and the third party had been rejected by the Court and the Judgment dated 29 January 2014 is upheld.

- (j) The Company was named seventh (7th) Defendant in a suit which involved the disposal of the Company's 750,000 ordinary shares of RM1.00 each in Malaysian Mega Galvaniser Sdn Bhd ("MMG"), representing fifty percent (50%) of the entire issued and paid-up share capital of MMG, to Acepoint Venture Sdn Bhd ("1st Defendant") at RM12.0 million ("Disposal of MMG's Shares").

The Disposal of MMG's Shares was approved by the Company's shareholders at an Extraordinary General Meeting on 12 March 2011. Goh Cheng Kum ("1st Plaintiff"), who owned 40% shares in MMG, also sold his shares in MMG to the 1st Defendant.

After the 7th Defendant's and the 1st Plaintiff's shares in MMG have been transferred to the 1st Defendant, the 1st Plaintiff alleges that the 1st Defendant has breached the agreement entered into with the 1st Plaintiff and sort the court to declare that the 1st Defendant is holding the shares on trust and seek an order that the agreement entered into between the 1st Defendant and the 1st Plaintiff is terminated.

At the same time, the Plaintiffs also allege that the Disposal of MMG's Shares by the 7th Defendant to the 1st Defendant should also be terminated due to illegality, and the Plaintiffs, for the said reason, have filed for declaration that the agreement entered into between the 1st Defendant and the 7th Defendant is terminated in the same action.

The suit came up for Case Management on 5 March 2012 and it was informed by the Plaintiffs that the service of the writ was not perfected on some of the defendants in the suit and request another date to perfect the same. The court has directed that the Plaintiffs to perfect the service of the writ on all parties with one (1) week from 5 March 2012 and thereafter allowed two (2) weeks for all parties to file their defence and fixed the suit for further Case Management on 26 March 2012. On 26 March 2012, the Court has granted an extension of three (3) weeks to the Company to file its defence.

The case management of the suit had been held on 7 May 2012, 22 May 2012, 6 June 2012 and 20 June 2012 respectively. On 20 June 2012, the Court fixed 17 October 2012, 18 October 2012, 28 November 2012 and 29 November 2012 for full trial of the suit. The Court given direction for the Plaintiffs to file their bundle of pleadings, common bundle of documents, agreed facts and issues to be tried before 27 July 2012 and fixed 27 July 2012 for further case management. On 27 July 2012, the Court had again fixed 17 August 2012 for further case management pending filing of bundle of documents by the Plaintiffs.

The case management of the suit had also been held on 13 September 2012, 21 September 2012, 5 October 2012 and 9 October 2012 respectively. At the case management on 9 October 2012, the Court had vacated the hearing that had been set for 17 October 2012 and 18 October 2012 but retained the hearing date on 28 November 2012 and 29 November 2012. The Court had later fixed 7 January 2013 and 8 January 2013 for the hearing and 19 October 2012 for further case management.

On 19 October 2012, the Court has directed the Company's solicitors to file the Affidavit in Reply for the Plaintiff's application to amend the Statement of Claim by 31 October 2012 and the Plaintiff shall reply by 5 November 2012. The said application is fixed for hearing on 6 November 2012 and further case management is also fixed on the same day. On 6 November 2012, the Court had fixed the said application for a decision on 7 November 2012 and the Court had adjourned the hearing that had been set for 28 November 2012 and 29 November 2012 but retained the hearing on 7 January 2013 and 8 January 2013. At the hearing on 7 November 2012 with regard to the Plaintiffs' application to amend the Statement of Claim, the Court had disallowed the amendments to paragraph 26(a) and part of paragraph 85(c), but the rest of the amendments had been allowed.

The Court had also fixed 28 November 2012 for further case management and all parties are required to amend and file their respective amended defense on the even date and further fixed 11 March 2013 and 13 March 2013 for further hearing of the suit. On 28 November 2012, the Court has directed the Plaintiff's solicitor to file the necessary amended Bundle of Pleadings and all other relevant documents by 12 December 2012. The Plaintiffs' solicitors have served the Company an application to re-amend their Statement of Claim which is fixed for Mention on 19 December 2012.

37. MATERIAL LITIGATION (cont'd)

The hearing for the application to amend the Statement of Claim was adjourned to 23 January 2013 from 11 January 2013. At the hearing for the application to re-amend the Statement of Claim which held on 5 February 2013, the Court had allowed the Plaintiff's application to amend the statement of claims. The Court has given further direction to the Plaintiff to file the amended statement of claim, defence and reply. The Court has fixed the above matter for further case management on 8 March 2013. The Court further vacated the hearing dates on 7 January 2013 and 8 January 2013 and fixed new dates for hearing on 12 April 2013, 23 April 2013, 24 April 2013, 25 April 2013, 26 April 2013, 10 May 2013, 17 May 2013 and 21 May 2013. Further to that, the Court once again vacated the hearing dates on 23 April 2013 to 26 April 2013 and fixed new dates for hearing on 8 April 2013, 9 April 2013, 30 April 2013 and 9 May 2013. During the hearing on 17 May 2013, the Court has fixed the suit for hearing on 11 June 2013, 1 August 2013, 2 August 2013, 5 August 2013, 6 August 2013, 26 September 2013, 27 September 2013 and 30 September 2013. During the case management on 10 July 2013, the Court had fixed additional dates for the hearing of the suit on 2 October 2013, 3 October 2013, 4 October 2013 and 6 November 2013. Subsequently, the Court had fixed additional dates for the trial of the suit on 7 November 2013, 8 November 2013, 13 January 2014, 15 January 2014, 14 February 2014, 7 March 2014, 21 March 2014, 31 March 2014, 11 April 2014 and 23 April 2014. During the case management on 20 August 2014, all parties have been directed by the Court to file their Written Submission in Reply by 30 September 2014. The Oral Submission was held on 3 November 2014 and 19 November 2014, respectively. During the Oral Submission on 19 November 2014, the Court has set 12 December 2014 for decision and subsequently the Court deferred the decision to 5 February 2015. The Court had dismissed the Plaintiffs' claim against Haisan on 5 February 2015.

- k) A third party had on 22 October 2013 filed a claim against a subsidiary of the Company claiming for the sum of RM4,798,977.54 and interest thereon (at the rate of 8% per annum from the date of judgement until the full payment is made) as amount owing for back-dated billing. The solicitors of subsidiary of the Company had on 6 November 2013 file the memorandum of appearance and the next case management for the matter has been fixed on 13 December 2013. The suit was fixed for case management on 14 February 2014, 28 March 2014, 23 April 2014 and further fixed for case management on 26 May 2014 and 3 September 2014 and the full trial dates are fixed for 22 to 26 September 2014. On 5 September 2014, the Company announced that the hearing dates fixed on 22 to 26 September 2014 have been vacated. Subsequently, the suit is further fixed for case management on 26 January 2015 and the suit is fixed for full hearing on 30 March 2015, 31 March 2015 and 1 April 2015. During the case management held on 26 January 2015, the hearing dates set earlier are vacated as a new Judge would be hearing on the suit. The Deputy Registrar has set the matter for case management on 16 March 2015. The court has fixed the trial date from 5 October 2015 until 8 October 2015.
